first published in 1986 this volume includes a collection of seven essays which are biographical in treatment examining trends or incidents in the careers of individual businessmen intended to illustrate the general themes of speculation and patriotism in the period 1880 1924

this book presents the latest findings on network theory and agent based modeling of economic and financial phenomena in this context the economy is depicted as a complex system consisting of heterogeneous agents that interact through evolving networks the aggregate behavior of the economy arises out of billions of small scale interactions that take place via countless economic agents the book focuses on analytical modeling and on the econometric and statistical analysis of the properties emerging from microscopic interactions in particular it highlights the latest empirical and theoretical advances helping readers understand economic and financial networks as well as new work on modeling behavior using rich agent based frameworks innovatively the book combines observational and theoretical insights in the form of networks and agent based models both of which have proved to be extremely valuable in understanding non linear and evolving complex systems given its scope the book will capture the interest of graduate students and researchers from various disciplines e g economics computer science physics and applied mathematics whose work involves the domain of complexity theory

the business to business trade publication for information and physical security professionals

human knowledge is fundamentally social most of the processes by which we acquire and evaluate information in everyday life giving and receiving testimony identifying experts and relying on them involve whole communities of people the successful use of knowledge to solve problems is thus most often a collective achievement likewise the failure to leverage knowledge is seldom the

fault of a single individual beginning each chapter with a real life example applied epistemology demonstrates how various concepts of knowledge relate to problems arising in practical contexts from trusting testimony and recognizing experts to acknowledging bias and resisting propaganda applied epistemology teaches us how to use theories of knowledge to navigate our complex world

includes literature
