tank turret fortifications traces the origins of the idea from the development of the first armoured turrets in the nineteenth century through to the present day on the way it covers the inter war period when the first turrets were used in this way the second world war when tank turrets were used on every front in the european theatre of operations and the post war period when tank turrets were used even more widely the book also details the decline of the idea as

countries reassessed the threats they faced and slowly dismantled all their fixed fortifications widely used during world war two and since tank turret fortifications deserve a history and neil short has spent several years writing this the first proper study

a concise explanation of the campaigns in which israel took over the west bank and the golan heights

a comprehensive and detailed illustrated examination of the development and combat performance of us battle tanks from the end of world war ii through to the present day in this the second of two highly illustrated volumes telling the full history of the design development and operational use of us army and us marine corps battle tanks steven j zaloga takes the story from the end of world war ii through the us soviet rivalry of the cold war period right up to the latest developments in american armored technology us battle tanks 1946 2025 draws and expands on material published in osprey s new vanguard and duel series to explain how the us army attempted to come to grips with the challenges of the nuclear battlefield and examines the introduction of new tank designs such as the famous patton tank series as well as short lived attempts to develop more radical tanks such as the t95 it covers the overly ambitious and failed mbt 70 tank program and the more austere m1 abrams that followed a tank that proved to be the best us tank design of the post world war ii period and one that is still in service today published in association with the ausa book program offering quality books about us army heritage military theory and policy and security in the modern world

hroughout this first guide of 100 pages the modeler will find inspiration for the next project and the complement for the new kits of many brands the book contains high quality color renderings showing the many camouflage patterns used on these vehicles by egyptian jordanian algerian syrian or israel armies in this period a special section in white photographs where can be seen arab vehicles captured in yom kippur by idf and also a chapter about surviving vehicles and israel sherman variants vol 2 coming soon don t miss this volume to complete the collection

tanks and armoured fighting vehicles have revolutionised modern warfare dominating the battlefield in conflicts all over the world with their firepower armour and mobility featured in this book are over 900 tanks armoured personnel carriers self propelled guns reconnaissance vehicles and armoured cars

vols for 1958 include an annual factbook issue

covers the conventions of the federation of paint and varnish production clubs and of the national paint varnish and lacquer association

janes årbog om artilleri og pansrede køretøjer der opdateres med en ny udgave hvert år

the object of this book is to provide a comprehensive account of the technology of tanks the tracked armoured fighting vehicles which have become such an important element of military power the account is concerned primarily with the current state of tank technology but it also covers preceding developments to help the understanding of how or why tanks have taken their present form while other forms or concepts have been abandoned it also includes an outline of the evolution of tanks from their inception to put their current state in its historical perspective and in the process to throw additional light on their origins about which there is still some confusion although the book is meant to be comprehensive it can not deal with every facet of the technology of tanks as this is outside the scope of a single work however it seeks to cover all the principal aspects of the subject
