in the wake of the fukushima daiichi nuclear power plant accident questions are being raised about the future of the uranium market including as regards the number of reactors expected to be built in the coming years the amount of uranium required to meet forward demand the adequacy of identified uranium resources to meet that demand and the ability of the sector to meet reactor requirements in a challenging investment climate this 24th edition of the red book a recognised world reference on uranium jointly prepared by the oecd nuclear energy agency and the international atomic energy agency provides analyses and information from 42 producing and consuming countries in order to address these and other questions it offers a comprehensive review of world uranium supply and demand as well as data on global uranium exploration resources production and reactor related requirements it also provides substantive new information on established uranium production centres around the world and in countries developing production centres for the first time projections of nuclear generating capacity and reactor related requirements through 2035 incorporating policy changes following the fukushima accident are also featured along with an analysis of long term uranium supply and demand issues

this is the first book devoted to churches in ireland dating from the arrival of christianity in the fifth century to the early stages of the

romanesque around 1100 including those built to house treasures of the golden age of irish art such as the book of kells and the ardagh chalice carrag in s comprehensive survey of the surviving examples forms the basis for a far reaching analysis of why these buildings looked as they did and what they meant in the context of early irish society carrag in also identifies a clear political and ideological context for the first romanesque churches in ireland and shows that to a considerable extent the irish romanesque represents the perpetuation of a long established architectural tradition

organizations such as the sierra club and friends of the earth are familiar to anyone with an interest in environmental protection as activist groups they played by the same rules for years but in 1994 the rules changed with the republican takeover of congress environmental groups faced sweeping changes in federal policies that threatened the enforcement of environmental laws as these organizations intensified their efforts to meet these challenges they also altered their electoral strategies and political spending patterns this book traces those actions and shows what they mean for the future of environmentalism in the political arena while environmental advocacy groups have become bigger and better funded in recent years so have the corporate interests that compete with them for the attention of public and politicians the green agenda in american politics offers a new look at environmental advocacy that focuses on contemporary lobbying electioneering and agenda setting in this new context drawing on interviews with activists from a wide range of organizations robert duffy describes what environmental groups actually do when lobbying officials or the public he examines activity at both national and state levels to emphasize their growing use of websites email and action alert networks to conduct more sophisticated grassroots campaigns and he shows how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy advertising and public education campaigns duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s he then documents the emergence of more aggressive action after 1994 such as providing campaign services to candidates and mounting voter registration drives he also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations brimming with new insights into interest group lobbies in general and contemporary environmental groups in particular duffy s book opens a new window on the influence of big money in the supposedly democratic

electoral process

synthesizes what is known about the cultural human history of kansas from 10 000 b c to the nineteenth century this significant contribution to plains archaeology provides the reader with the first comprehensive overview of the subject in nearly fifty years

the first scholarly study of winter use in any national park examines the history of the conflict between the national park service and various interest groups over snowmobile use in yellowstone a highly politicized value driven battle that has taken a serious toll on the nps s ability to protect the park
