education is intimately connected to many of the most important and contentious questions confronting american society from race to jobs to taxes and the competitive pressures of the global economy have only enhanced its significance elementary and secondary schooling has long been the province of state and local governments but when george w bush signed into law the no child left behind act in 2002 it signaled an unprecedented expansion of the federal role in public education this book provides the first balanced in depth analysis of how no child left behind nclb became law patrick mcguinn a political scientist with hands on experience in secondary education explains how this happened despite the country s long history of decentralized school governance and the longstanding opposition of both liberals and conservatives to an active reform oriented federal role in schools his book provides the essential political context for understanding nclb the controversies surrounding its implementation and forthcoming debates over its reauthorization how the struggle to define the federal role in school reform took center stage in debates over the appropriate role of the government in promoting opportunity and social welfare he places the evolution of the federal role in schools within the context of broader institutional ideological and political changes that have swept the nation since the 1965 elementary and secondary education act chronicles the concerns raised by the 1983 report a nation at risk and shows how education became a major campaign issue for both parties in the 1990s mcguinn argues that the emergence of swing issues such as education can facilitate major policy change even as they influence the direction of wider political debates and partisan conflict mcguinn traces the republican shift from seeking to eliminate the u s department of education to embracing federal leadership in school reform then details the negotiations over nclb the forces that shaped its final provisions and the ways in which the law constitutes a new federal education policy regime against which states have now begun to rebel and that only by understanding the unique dynamics of national education politics will reformers be able to craft a more effective national role in school reform

scientific essay from the year 2012 in the subject speech science linguistics grade excellent with honor course critical discourse analysis language english abstract the present paper has shown the practical part of cda according to three scholars namely they are norman fairclough ruth wodak and teun van dijk their approaches are somehow different in method and way of interpretation while fairclough is brought up on the systemic functional model of theory and thus often concentrates on rather limited amounts of research material wodak turns to sociolinguistics and ethnography with an emphasis on corpus based research and on work with different approaches with a variety of empirical data as well as background information however the notion that language is inherently social remains a key assumption in both approaches on the other hand similarly to fairclough van

dijk acknowledges three different perspectives text discourse practice and sociocultural practice and emphasizes on the link between textual analysis and sociocultural analysis however van dijk differentiates himself from both fairclough and wodak in his understanding of social events or of social institutions and power relations to van dijk social cognitions mediate between micro and macro levels of society between discourse and action between the individual and the group therefore the focus on social cognition governs the process of analysis
