joni patry writes in detail about her predictions for the coming years 2024 to 2042 once again she displays her vedic astrology talents as she continues to make accurate predictions based on her past predictions

the book by dr dennis harness provides an excellent practical presentation to this important astrological system it shows us how to access the wisdom of the nakshatras in our personal life and for our society through it the modern reader can understand the energies of their stars and learn how to utilize these to bring their lives into harmony with the great forces of the universe the book is a must reading not only for any students of astrology but for anyone interested in self development or spiritual growth

astrology is the oldest science in the world most would exclaim it is not a science but let s face it it is a study of cycles involving mathematics in which numbers and vibration are the crux of the universe throughout history ignorance has kept us from the truth and those who tried to present the truth were imprisoned and even killed galileo was condemned for saying the earth was round and it revolved around the sun instead of the sun revolving around us this law of the universe is so simple but at the same time so hard to change in our everyday life the law

of attraction or law of cause and effect simply means what we think about and say we will attract to us

understanding planets their effects each planet emanates certain energy while moving through the zodiac circle some planets move faster like sun moon mercury mars and venus these are called inner planets and they affect us in a more personal and rapid manner influencing our daily life impulses and mood all planets in solar system are revolving around sun in a predefined pattern that's how we know when to wake up and when to go to bed planets however govern a lot more than just occurrence of day and night or eclipses and tides planets have a direct impact on us despite being several light years away while the position of planets does not dictate our everyday actions it does have a profound and close influence on our life and destiny understanding planets their effects much like nobody forces moon to orbit earth humans are also under no force to act in a certain way but everything in the universe is correlated and works in sync so naturally the movement of planets affects our actions as a result much like our actions affect the environment human body is in fact made of elements present in the universe the structure of our brain is very much similar to the structure of universe everything that happens to the universe happens to us our own magnetic field aligns with the earth's magnetic field each object in the universe be it humans earth planets and stars in our galaxy move in a precise symphony so we have to connect ourselves to these energy sources to receive the vibrations and function better each planet emanates certain energy while moving through the zodiac circle some planets move faster like sun moon mercury mars and venus these are called inner planets and they affect us in a more personal and rapid manner influencing our daily life impulses and mood the outer planets move slowly in the sky some even take as much as 25 years to change a sign these include jupiter saturn rahu and ketu and these planets have a more profound and long lasting impact on us unlike say moon astrological significance of planets every planet rules a zodiac sign except rahu and ketu which are in fact not actual planets but two reference points in the sky rahu and ketu are the points where the paths of the sun and moon intersect with each other rahu is the north lunar node the head of the dragon as per mythology and ketu is the south lunar node the qualities of the zodiac signs somewhat align with the characteristics of the planets for instance impulsive and active aries is ruled by fiery mars dreamy pisces is ruled by spiritual jupiter emotional cancer is ruled by motherly moon while confident leo is ruled by masculine sun

in hindu astrology rahu and ketu signify the two mathematical points on each side of the moon that have a significant impact on self experience the significance of rahu and ketu in vedic astrology is realized positively and negatively in a person's life as a rising node of the moon rahu is known to cause spiritual growth and whenever it exists in a chart the result is luxury and obsession it's a powerful node favorable to politicians as it presents opportunities and immense power to ascend in political affairs both justly and unjustly rahu also influences criminals snakes as well as magicians just to mention a few rahu has the power to give wealth and make a person popular at the same time this shadow planet is likely to cause confusion despair and emotional inequity it's very powerful in the 3rd 6th and 11th houses of a horoscope ketu is a shadowy descending and malefic planet but not as malefic as rahu ketu offers liberation and nonattachment to material

desires and worldly ambitions it provides spiritual knowledge power to differentiate self knowledge as well as wisdom whenever present in a chart it gives a person psychic abilities a person can perform natural healing deal with ghosts evil spirits and astral forces as well as make them wizards of foods herbs and spices ketu enables a person to blend in naturally among people
