this book focuses on the personalisation of the user interface in e commerce based on collected data on customer behaviour while product recommendation systems are widely used for this purpose today they do not allow for a comprehensive adaptation of the layout to different user groups the proposed approach is based on the conclusion that since e commerce customers are different the user interface should also be different to make this possible several components need to be combined which together allow the design of the online shop to be automatically or expertly adapted to the customer s choices and behaviour it presents and discusses a framework that allows data to be collected processed and used to optimise ui variants for generated customer segments the proposed approach has been verified in practice and further developed on this basis so that the reader is presented with a solution that is not riddled with baby age problems and the limitations and challenges identified are described and commented on in detail typical e commerce systems currently have a single ui for all customers the implementation of multi variant uis therefore represents an opportunity for companies to create a marketing advantage by addressing the personalisation trends in e commerce the book is intended for those responsible for developing e commerce platform and user interfaces for web based systems as well as individuals interested in practical applications of machine learning in business

we propose a novel meta approach to support collaborative multi objective supplier selection and order allocation ssoa decisions by integrating multi criteria decision analysis and linear programming lp

the language is highly accessible and this makes it particularly suitable for undergraduate and international students at all levels the combination of extended case material shorter cases and illustrations of management in practice makes for a varied and stimulating approach the activities will encourage and enable students to work independently to develop both their knowledge

and skills abby cathcart sunderland business school university of sunderland i like the activities that explicitly ask for critical reflection and am sure that my students will benefit from the development of their critical thinking skills the cases and examples in the book are helpful both because they come from a wide variety of national backgrounds and because companies like ryanair and nokia are familiar names ad van iterson organization and strategy department faculty of economics and business administration maastricht university all the case studies are both relevant and appropriate there is a wide spread of international examples and a striking variety of organisations throughout the chapters which will undoubtedly enhance the students learning process paschal mcneill department of business administration quinn school of business university college dublin what is management and what activities and behaviour does it entail how do ideas and theories of management apply to commercial enterprise and other areas of work how is the environment of management changing and what are the impacts of recent trends management an introduction addresses these and many other questions by providing a comprehensive account of the themes and functions of management aimed at the first time student of the subject and written in a highly accessible style this is an academically rigorous text which brings the topic to life with a wide range of appealing and readily identifiable examples among the most valuable features and aids to learning in the book are case studies on organisations as diverse as ryanair vodafone ericsson and oxfam to provide relevant illustrations of theory in practice critical reflections to encourage the application of personal experience and critical thinking to the issues in question skills development activities to build practical and work based competences key terms highlighted in the text and defined both at the margin and in a full glossary a companion website at pearsoned.co.uk boddy provides tools for revision such as self assessment questions and flashcards and for research such as weblinks and case study updates david boddy is a research fellow at the school of business and management university of glasgow he is author of two other books published by pearson education managing information systems an organisational perspective 2005 and managing projects 2002

this book provides a holistic understanding of the state of health psychology in the indian context and the types of psychological and social support and welfare that are offered and required within treatment processes for various illnesses the book discusses why health care should be the prerogative of both the biomedical profession and health psychologists and how they work together with medical professionals to augment public health it emphasises the shift from biomedical to biopsychosocial approach in strengthening health care outcomes the book highlights the substantial contribution of health psychology to the indian health care system through simple cost effective indigenous and standardised techniques that worked efficiently in the context of various diseases it projects the emerging trends and innovative techniques in health psychology in handling challenging health care needs this book will be of interest to students teachers and researchers of psychology psychiatry social psychology sociology social work and south asian studies

special education in contemporary society an introduction to exceptionality is designed for use by preservice and inservice teachers who will teach students with special needs in the general classroom the text provides a rare glimpse into the lives of persons with exceptionalities including their families and teachers focusing on human exceptionalities across the life span the text employs a traditional organization beginning with four foundations chapters that introduce teachers to special education followed by 10 categorical chapters each on a different disability each categorical chapter features sections on transition cultural diversity technology instructional strategies and family considerations
