why do we have airlines how were they created was twa flight 800 an accident how safe are airplanes and why are they safe what jobs are there in commercial aviation this book provides answers to these questions and many more understanding how and why an airline is started structured and regulated provides the flying public with the answers to why you are safe when you fly for those interested in becoming an airline employee jobs are listed that can be pursued job descriptions are included not only for those interested in working in aviation but those employees working in the industry desiring to be promoted the book offers insight as to why the government regulates and controls airlines with references to the legislations that prompted these controls and regulations

an astute account of tokyo s commuter train network and an intellectually stimulating invitation to rethink the interaction between humans and machines japan forum with its infamously packed cars and disciplined commuters tokyo s commuter train network is one of the most complex technical infrastructures on earth in an anthropology of the machine michael fisch provides a nuanced perspective on how tokyo s commuter train network embodies the lived realities of technology in our modern world drawing on his fine grained knowledge of transportation work and everyday life in tokyo fisch shows how fitting into a system that operates on the extreme edge of sustainability can take a physical and emotional toll on a community while also creating a collective way of life one with unique limitations and possibilities an anthropology of the machine is a creative ethnographic study of the culture history and experience of commuting in tokyo at the same time it is a theoretically ambitious attempt to think through our very relationship with technology and our possible ecological futures fisch provides an unblinking glimpse into what it might be like to inhabit a future in which more and more of our infrastructure and the planet itself will have to operate beyond capacity to accommodate our ever growing population not a rage against the machine but an urge to find new ways of coexisting with technology contemporary japan an extraordinary study ethnos a fascinating in depth account of the innovations

inventions sacrifices and creativity required to ensure tokyo s millions of commuters keep rolling it also provides much food for thought as our transportation systems become increasingly reliant on automated technology pacific affairs
