william rowe is one of the leading thinkers in contemporary philosophy of religion although he is best known for his contributions to the problem of evil he has produced innovative and influential work across a wide array of subjects at the interface between philosophy

and religion he has for example written extensively on the existentialist theologian paul tillich on the challenging problem of divine freedom and on the traditional arguments in support of the existence of god his work in these areas is distinguished by its clarity rigour originality and sensitivity towards the claims of his theistic opponents indeed rowe s work has played a pivotal role in the remarkable revival of analytic philosophy of religion since the 1970s the present collection brings together for the first time rowe s most significant contributions to the philosophy of religion this diverse but representative selection of rowe s writings will provide students professional scholars as well as general readers with stimulating and accessible discussions on such topics as the philosophical theology of paul tillich the problem of evil divine freedom arguments for the existence of god religious experience life after death and religious pluralism

by d m armstrong in the history of the discussion of the problem of universals g f stout has an honoured and special place for the nominalist meaning by that term a philosopher who holds that existence of repeatables kinds sorts type and the indubitable existence of general terms is a problem the nominalist s opponent the realist escapes the nominalist s difficulty by postulating universals he then faces difficulties of his own is he to place these universals in a special realm or is he to bring them down to earth perhaps turning them into repeatable properties of particulars universalia in res and repeatable relations between universals universalia inter res whichever solution he opts for there are well known difficulties about how particulars stand to these universals under these circumstances the nominalist may make an important concession to the realist a concession which he can make without abandoning his nominalism he may concede that metaphysics ought to recognize that particulars have properties qualities perhaps and are related by relations but he can maintain these properties and relations are particulars not universals nor indeed is such a position entirely closed to the realist a realist about universals may and some realists do accept particularized properties and relations in addition to universals as dr seargent shows at the beginning of his book a doctrine of particularized properties and relations has led at least a submerged existence from plato onwards the special classical
