the second edition of archaeological investigation is even more ambitious than the first and reaches out into different kinds of archaeological investigation practiced the world over including updated theory aims and methods of field archaeology in the academic and commercial sectors it to explores the procedures used from discovery to publication divided into four parts part 1 principles sets the scene for newcomers showing the axial role of fieldwork in rediscovering the past part 2 in the field is aimed at those setting out on their path of exploration word pictures on first day in the field and first day on a dig provide friendly introductions to the high tech enterprise that field work has become and how the vital records of discoveries are made now fully engaged in the process the wouldbe archaeologist is ready to take part in the key phase of the investigation part 3 writing up here all the results of fieldwork are marshalled with a view to analyzing the finds the use of space and the chronology of what happened at the site the results are then communicated through museums the display of sites and above all by publication that presents the discovered objects buildings and activities and how they contribute to new understanding of the past part 4 design is addressed to the fully fledged field archaeologist ready to participate in their leading action how to make archaeology happen it begins with a tour of great projects challenges and then explains the way archaeological projects are devised to break new ground and solve historical and prehistorical problems designing projects the final chapter discusses the opportunities pleasures difficulties and rewards of working as a full time archaeologist the profession now with prehistorian madeleine hummler as joint author archaeological investigation remains an inspiring provocative informative and entertaining book for students and professional and makes a powerful case for archaeology s benefits and relevance to communities present and to come

an archaeological investigation is usually undertaken to provide information in response to a proposed development which could cause damage to archaeological remains as part of the planning process within the framework of appropriate national planning policy guidance notes and or development plan policy as part of an environmental impact assessment in connection with management plans and mitigation strategies of private local and national or international bodies outside the planning process e g infrastructure projects ecclesiastical developemtn coastal erosion agriculture forestry and countryside management works by public utilities and statutory undertakers where the investigation finds archaeological remains they are recorded analysed and interpreted and the findings disseminated as appropriate these conditions of contract the first of its kind regulate the business relationship between the employer and the specialist archaeological contractor during the course of an arcaeological investigation the contract retains a pattern traditional in civil engineering contracts with an investigation commissioned by an employer landowners developers etc designed or approved by an engineer and carried out by a specialist archaeological contractor only that the term consultant is used instead of engineer its advantages include providing parties to the contract

with and advanced warning of circumstances that may give rise to additional costs or delay or which may warrant a significant change to the scope of the investigation enabling the minimisation of additional cost and or delay as well as potential for dispute minimising the incidence of disputes and resolving those that may arise in a speedy and non confrontational manner on that basis that many archaeological contracts will fall within the provisions of part 2 of the housing grants construction and regeneration act 1996 this contract has been drafted to comply with the legislation with the intention that the various statutory schemes for construction contracts should not apply

report volume 1 by alexander cunningham and the archaeological survey of india offers a detailed account of early archaeological explorations and surveys conducted in india published in 1871 this historical document provides invaluable insights into the methods and findings of the survey laying the groundwork for future archaeological research in the region Cunningham's meticulous observations and documentation shed light on various historical sites monuments and artifacts making this volume an essential resource for scholars and enthusiasts interested in indian history and archaeology this report showcases the initial efforts to systematically study and preserve india's rich cultural heritage reflecting the early stages of organized archaeological investigation this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original artifact and remains as true to the original work as possible therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work as a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

drawing its numerous examples from britain and beyond archaeological investigation explores the procedures used in field archaeology travelling over the whole process from discovery to publication divided into four parts it argues for a set of principles in part one describes work in the field in part two and how to write up in part three part four describes the modern world in which all types of archaeologist operate academic and professional the central chapter projects galore takes the reader on a whirlwind tour through different kinds of investigation including in caves gravel quarries towns historic buildings and underwater archaeological investigation intends to be a companion for a newcomer to professional archaeology from a student introduction part one to first practical work part two to the first responsibilities for producing reports part three and in part four to the tasks of project design and heritage curation that provide the meat and drink of the fully fledged professional the book also proposes new ways of doing things tried out over the author's

thirty years in the field and brought together here for the first time this is no plodding manual but an inspiring provocative informative and entertaining book urging that archaeological investigation is one of the most important things society does

who wants archaeology who should pay for it who should do it and how making archaeology happen is an attempt to answer these questions campaigning for a more liberated imaginative and productive field profession

the archaeological investigations project aip funded by english heritage systematically collected information about the nature and outcomes of more than 86 000 archaeological projects undertaken between 1990 and 2010 this volume looks at the long term trends in archaeological investigation and reporting places this work within wider social political and professional contexts and reviews its achievements information was collected through visits to public and private organizations undertaking archaeological work planning policy guidance note 16 archaeology and planning known as ppg16 published in 1990 saw the formal integration of archaeological considerations with the uk town and country planning system that and set out processes for informed decision making and the implementation of post determination mitigation strategies defined a formative era in archaeological practice and established principles that underpin today s planning policy framework the scale of activity represented more 1000 excavations per year for most of the ppg16 era is more than double the level of work undertaken at peak periods during the previous three decades this comprehensive review of the project presents a wealth of data a series of case studies examines the illustrate different types of development project revealing many ways in which projects develop how archaeology is integrated with planning and execution and the range of outputs documenting the process and identified a series of ten important lessons that can be learned from these investigations looking into the post ppg16 era the volume considers anticipated developments in the changing worlds of planning property development and archaeological practice and proposes the monitoring of archaeological investigations in england using a two pronged approach that involves self reporting and periodic strategic overviews

hong kong boasts a number of rich archaeological sites behind sandy bays among these backbeaches is sha po on lamma island a site which has long captured the attention of archaeologists however until now no comprehensive study of the area has ever been published piecing together sha po presents the first sustained analysis framed in terms of a multi period social landscape of the varieties of human activity in sha po spanning more than 6 000 years synthesising decades of earlier fieldwork together with atha and yip s own extensive excavations conducted in 2008 2010 the discoveries collectively enabled the authors to reconstruct the society in sha po in different historical periods the artefacts unearthed from the site some of them unique to the region reveal a vibrant past which saw the inhabitants of sha po interacting with the environment in diverse ways evidence showing the mastery of quartz ornament manufacture and metallurgy in the bronze

age suggests increasing craft specialisation and the rise of a more complex competitive society later on during the six dynasties tang period sha po turned into a centre in the region s imperially controlled kiln based salt industry closer to our time in the nineteenth century the farming and fishing communities in sha po became important suppliers of food and fuel to urban hong kong ultimately this ground breaking work tells a compelling story about human beings ceaseless reinvention of their lives through the lens of one special archaeological site a singular effort in the field of hong kong archaeology piecing together sha po adopts a social landscape approach to chart the development of a single site over millennia of occupation revealing as it does the untapped potential which careful field investigations hold for generating a better understanding of the region s rich past francis allard department of anthropology indiana university of pennsylvania this volume is the best overview of the early history of hong kong that i know the authors have articulated patterns of human settlement at sha po in a masterly way that informs us not only of lamma island or greater hong kong but of lingnan as a whole i welcome it as the key source for specialists and the interested public alike charles higham department of anthropology and archaeology university of otago new zealand it is rare indeed for a multi period study of a region to not only synthesise a vast range of archaeological material but also include incisive points of theory alongside that narrative such as the need to understand evidence at a landscape level and questioning the utility of neolithic and bronze age categories this is such a book steve roskams department of archaeology university of york
