how much did american protestants know about the nazi persecution of european jews before and during word war ii very little many of them claimed in the postwar years robert w ross challenges that answer in this analysis of the ways in which protestant journals ranging from the christian centuryÓ to the arkansas baptistÓ reported and editorialized on the subject from 1933 through 1945

in this provocative book pastor john avant encourages readers to uphold a consistent practice of what they believe not just a verbalization of what they believe if christians truly believe in god they should live genuinely changed lives as the ultimate proof that he is real many christians live their lives as if they do not believe in god they go to church and praise his name on sundays but in their daily lives they don t think about the lord that often they don t show much concern or charity for others they don t feel gratitude to the lord for his blessings they don t allow god s love to be reflected in their actions giving christianity a bad name in the process in their practical day to day lives many christians are almost living as though they are atheists pastor avant witnesses many christians not living up to their claims and he asserts that there is not much christ left in that form of christianity in if god were real he challenges christians to consider whether or not they believe in god if they do pastor avant wants readers to consider what life would be like if they lived as if they believed in god he advocates for the pursuit of a new jesus movement that resembles christ s original followers followers who were so steadfastly devoted to him that their every action reflected his glory with if god were real readers will embark on an adventure of discovery of the real god and a life lived in praise of him

this book is about the role of expert systems in marketing particularly in the consumer goods industry section i describes the changing nature of consumer marketing and presents the rationale and need for expert systems the remainder of the book combines a tutorial on expert systems with a series of expert system prototypes the tutorial material is presented in three places first section ii is devoted to introducing expert systems in general chapter 3 provides a general introduction to the topic which is continued in chapter 4 where a small expert system the promotion advisor is used to illustrate the important features of a backward chaining rule based system the promotion theme is extended in chapter 5 where a larger system is presented the material in all three of these chapters was designed as an introduction and tutorial on the most common technology for building applied expert systems the backward chaining rule based inference engine tutorial material is also contained in the body of the chapters that describe the prototypes this material is usually in the form of sample rules and a description of the process for applying the rules

the third location of the expert system material is in chapters that follow discussions of the prototypes chapter 7 is a technical chapter on the coupling of expert systems to traditional systems
