questo libro è un progetto di un corso fotografico per ragazzi dove ha lo scopo di trasmettere quella che per me la fonte di linguaggio più diffusa al mondo in quest'era tecnologica ho voluto trasmettere ai ragazzi la passione e l'amore per la fotografia come l'hanno avuta i grandi pionieri della fotografia questi 11 campioni li considero così per la loro grande curiosità e sensibilità nell'apprendere e percepire le mie passioni e le mie sensazioni

la possibilità di incontrare altre specie in sistemi lontani della galassia viene realizzata al passare di un numero imprecisato di generazioni colonizzatori terrestri che partono sapendo che non riusciranno nemmeno a vedere il nuovo pianeta sul quale vivranno i loro discendenti l'incontro con civiltà evolute in precedenza e civiltà che si oppongono alla evoluzione senza riguardi per l'armonia della natura la stretta somiglianza evolutiva delle specie superiori che porta a vedere cugini sparsi per la galassia la pace e la collaborazione quale corretta strada evolutiva la tradizione dei terrestri viene conservata nel breve periodo con la iii guerra mondiale che condurrà alla quasi scomparsa dell'uomo e nel lungo periodo per la guerra fra le colonie terrestri fermata dall'intervento di misteriose entità

considerations about size and scale have always played a central role within greek and roman visual culture deeply affecting sculptural production both greeks and romans in particular had a clear notion of colossality and were able to fully exploit its implications with sculpture in many different areas of social cultural and religious life instead despite their ubiquitous presence an equal and contrary categorization for small size statues does not seem to have existed in greek and roman culture leading one to wonder what were the ancient ways of conceptualizing sculptural representations in a format markedly smaller than life size even in the context of modern scholarship on classical art few notions appear to be as elusive as that of small sculpture often treated with a certain degree of diffidence well summarized in the formula *klein aber kunst* in fact a large and heterogeneous variety of objects corresponds to this definition all kinds of small sculpture from statuettes to miniatures in a variety of materials including stone bronze and terracotta associated with a great array of functions and contexts and with extremely different levels of manufacture and patronage it would be a major misunderstanding to think of these small sculptures in general as nothing more than a cheap and simplified alternative to larger scale statues compared with those their peculiar format allowed for a wider range of choices in terms for example of use of either cheap or extremely valuable materials not only marble and bronze but also gold and silver ivory hard stones among others methods of production combining seriality and variation modes of fruition such as involving a degree of intimacy with the beholder rather than staging an illusion of presence furthermore their pervasive presence in both private and public spaces at many levels of greek and roman society presents us with a privileged point of view on the visual literacy of a large and varied public although very different in many respects small sized sculptures entertained often a rather ambivalent relationship with their larger counterparts drawing from them at the same time schemes forms and iconographies by offering a fresh new analysis of archaeological evidence and literary sources through a variety of disciplinary approaches this volume helps to illuminate this rather complex dynamic and aims to contribute to a better understanding of the status of greek and roman small size sculpture within the general development of ancient art
