a marked characteristic of judaism in the centuries surrounding the time of jesus was its pseudepigraphical writing books which did not bear the name of their actual author but were attributed to figures from the past particularly patriarchs and prophets in this book dr russell shows the developments in the understanding of the character and function of these figures as they appear from the pseudepigrapha he begins by looking at developments related to his theme in philo and josephus the rabbinic literature and the dead sea scrolls he then goes on to consider adam enoch and noah daniel job abraham isaac and jacob the twelve patriarchs moses and ezra and then the lives of the prophets and the eschatological prophets now that the importance of jewish literature of this period is increasingly understood and texts are more easily accessible this new study will be found particularly useful for seeing familiar figures of the old testament not just through perspectives shaped by christian tradition or modern historical criticism but as they were seen by jews at the time when they were written d s russell was formerly general secretary of the baptist union of great britain and ireland he has specialized in studies of this period

most bible translations bend the text toward us making the rough bits more palatable to our modern sensibilities in this old testament translation john goldingay sets our expectations off balance by inviting us to hear the strange accent of the hebrew text unbaptized in pious religiosity translating consistently word by word this unique interpretation allows us to read the sacred text through fresh eyes
