this systematic critical review of more than 600 recent publications in social impact

assessment sia and related fields is based on the authors belief that sia is more than an analytical technique it is also a logical and timely response to our ever growing need for more and better information to facilitate decision making in an increasingly c

designed to provide clear and detailed assistance in the complex process of assessing social change this book emphasizes the development of an analytic approach and a theoretical framework that can be applied to the assessment of very diverse events changes in the natural environment the local economy or the dominant technology the guide based on a sociological perspective that highlights the importance of community social organization in analyzing social change focuses on the development of user skills in assessment design research analysis and presentation the guide s theoretical basis and emphasis on the interrelationships that create social change make it valuable to those studying social change in general as well as to those responsible for conducting or utilizing social impact assessments detailed how to information clear writing and careful design impart the skills necessary to identify and analyze the factors and processes leading to social change and to interpret and present research findings in an effective manner

the guide is a tool for practitioners at all levels social scientists agency employees community leaders volunteers to complete social impact assessments sias efficiently and effectively the guide is a how to manual that provides the users with a step by step process easily followed by persons with minimal social science training the guide is organized into three sections chapters 1 6 provides the background a short history the conceptual model the sia scoping process and an explanation as to how to obtain data to measure sia variables chapters 7 11 correspond to the five categories of sia variables population change community and institutional arrangements communities in transition individual and family impacts and community infrastructure needs chapters 12 13 provide worksheets for summarizing sia variables and how resulting data may be used in the sia mitigation enhancement process

this book should be read by anyone commissioning impact assessments who wants to build their understanding of the more progressive and innovative end of the topic a job well done in the eyes of stakeholders and regulators requires proper social analysis jon samuel head of social performance anglo american the list of authors reads like a who s who in sia academics and practitioners are equally represented among the authors the book provides a good mix of broad theoretical concepts and specific practical topics martin haefele manager environmental impact assessment at mackenzie valley environmental impact review board yellowknife northwest territories canada this book gives a very broad overview of where social impact

assessment is coming from where it is now and where it could go from an impact assessment tool to an impact management tool it provides a realistic insight in both the achievements and the struggles of social impact assessment a recommended read for both those interested in social impact assessment and those in related domains where social issues are gaining increasing importance such as environmental assessment and sustainability appraisal rob verheem deputy director netherlands commission for environmental assessment this important new book outlines current developments in thinking in the field of social impact assessment sia it advances the theory and practice of sia and argues that a dramatic shift is required in the way socioeconomic studies and community participation is undertaken the book emphasizes that much more than the act of predicting impacts in a regulatory context sia needs to be the process of managing the social aspects of development and that there needs to be a holistic and integrated approach to impact assessment it stresses that greater attention needs to be given to ensuring that the goals of development are attained and enhanced this significant addition to the literature will be an invaluable reference for academics consultants and practitioners

this book explores the history of social impact measurement offering justifications for the use of social impact measurement in modern society it seeks to uncover the tensions inherent in social impact measurement especially between creating and measuring social value creation as the world becomes ever more globalised in its focus to deliver sustainable solutions to social and environmental problems frameworks such as the united nation s sustainable development goals sdgs provide basic structure through which social impact can be assessed and compared globally nevertheless constructive critiques of such approaches are required to ensure that they do not misinform stakeholders disenfranchise the disadvantaged and exacerbate existing social problems in providing this overview the book seeks to offer a critical review of the social impact measurement field centred on concepts of empowerment and social action weber 1978 whilst also demonstrating best practice and potential pitfalls to policymakers and practitioners

this book addresses the nature purpose and processes associated with social impact analysis because resource development projects occur in human as well as ecological environments stakeholders landowners companies and governments are compelled to ensure that the benefits of any project are maximized while the negative risks are minimized achieving such objectives means implementing programs which monitor and evaluate the ongoing effects of a project on the social and cultural lives of the impacted populace this book aims to provide a teaching and training resource for students social scientists anthropologists sociologists human geographers

environmentalists engineers etc and indigenous personnel and operators who are tasked with community affairs programs in those countries where resource development projects are implemented the constituent chapters provide how to guides and frameworks that are generously illustrated with case studies drawn variously from north america and the asia pacific region topics addressed include legal frameworks and compliance procedures social mapping environmental reports social and economic impact studies social monitoring techniques project development statistical packages and report production this book is unique in so far as it seeks to prioritize application over theory moreover it is the first training resource that is sensitive to non western indigenes need to assimilate and apply skills engendered by western countries

this book provides a valuable addition to the social impact assessment sia literature while the volume addresses several good examples of how to case studies it also firmly addresses the importance of the need for firm conceptual and theoretical guidelines for sia practice the volume is an excellent contribution to the sia literature and i highly recommend it to both practitioner and researcher alike geoff syme australasian journal of environmental management an innovative collection which takes social impact assessment to the frontiers of environmental and social policy and citizen awareness unusually this collection includes both sophisticated quantitative tools and equally important chapters on participation stakeholder involvement and environmental mediation a most valuable source book michael redclift king s college london uk social impact assessment sia is the process of analysing and managing the intended and unintended consequences on the human environment of planned interventions policies programmes plans projects so as to bring about a more sustainable and equitable biophysical and human environment this important handbook presents an indispensable overview of the range of new methods and of the conceptual advances in sia recent increased attention to social considerations has led to substantial development in the techniques useful to and the thinking in sia a distinguished group of contributors provides an up to date and comprehensive account of the cutting edge in sia development this handbook outlines a new understanding and definition of sia and as such will be an invaluable reference tool for both practitioners and scholars at different levels working in the fields of sia and environmental studies including both impact assessment and management

this book is intended for introductory courses in sia within sociology social policy human geography and political science at postgraduate level specialist postgraduate and professional courses in policy orientated social research and in social and general impact assessment

this book addresses the nature purpose and processes associated with social impact analysis because resource development projects occur in human as well as ecological environments stakeholders landowners companies and governments are compelled to ensure that the benefits of any project are maximized while the negative risks are minimized achieving such objectives means implementing programs which monitor and evaluate the ongoing effects of a project on the social and cultural lives of the impacted populace this book aims to provide a teaching and training resource for students social scientists anthropologists sociologists human geographers environmentalists engineers etc and indigenous personnel and operators who are tasked with community affairs programs in those countries where resource development projects are implemented the constituent chapters provide how to guides and frameworks that are generously illustrated with case studies drawn variously from north america and the asia pacific region topics addressed include legal frameworks and compliance procedures social mapping environmental reports social and economic impact studies social monitoring techniques project development statistical packages and report production this book is unique in so far as it seeks to prioritize application over theory moreover it is the first training resource that is sensitive to non western indigenes need to assimilate and apply skills engendered by western countries

although national governments and international agencies have committed vast sums of money to development many projects have not only failed to improve the lives of the poor but in some cases have created additional social and economic problems such failures can often be traced to an inadequate understanding of the socio cultural reality of the people most directly affected and to a lack of their participation in project planning implementation and evaluation in this collection of essays scholars and practitioners from diverse disciplines examine many of the perplexing social issues of development planning from the perspective of social impact analysis drawing on national regional and local case studies the authors demonstrate why sociocultural factors are seldom adequately understood and discuss how they can be effectively incorporated into the planning process

this note provides an overview of good practice standards in social impact assessment sia it has been prepared by the inter american development bank idb to provide guidance to practitioners and decision makers by applying the approach presented in this note it is expected that the quality consistency and operational relevance of sias will improve sia facilitates the systematic integration of social issues in the planning and implementation of projects it improves the quality and sustainability of projects supports and strengthens national requirements and

enhances project acceptance and local ownership the sia helps to identify and manage potential adverse social impacts a project may cause or contribute to and to maximize benefits to local communities and other groups

written by experts this text deals with how environmental impact assessment should be carried out for specific environmental components such as air and water
