Historical Context and Economic Reforms India's economy was primarily agrarian before independence, with limited industrialization. Post-independence, the government adopted a planned economy model emphasizing self-sufficiency. However, by the late 20th century, it faced challenges such as low growth rates and inefficiencies. promoting industrialization, infrastructure development, and technological advancement. Key industries include: Textiles and garments Automobiles Steel and heavy engineering Pharmaceuticals and chemicals Despite progress, the sector faces issues such as infrastructural bottlenecks, regulatory hurdles, and environmental concerns. Services Sector The fastest-growing sector, contributing over 50% to India's GDP, includes IT, telecommunications, finance, real estate, and tourism.
