how can excellence in the teaching of research methods be encouraged and ensured this question has become increasingly important following the adoption of research methodology as a core part of many postgraduate and undergraduate courses there has however been little discussion about the aims and methods of teaching the subject in this volume a number of authors from a variety of

countries and disciplines employ their knowledge and experience towards the development of a pedagogical culture in research methods their aim is to establish the extent of common concerns and challenges and to demonstrate ways in which these are being met intended to provide both a stimulus and source materials for the development of a more substantial and systematic literature in the field the book will be of great interest to all those teaching research methods courses within social science disciplines

this is an essential book for all those concerned with the field of assessment it addresses relevant and timely conceptual and practical issues from a research perspective and based on research results clearly provides solutions to practical applications at the cutting edge of the emerging area of new modes of assessment in a clear and rigorous manner the authors explore new methods and study the various quality aspects of innovative approaches

the pisa 2000 technical report now describes the complex methodology underlying pisa 2000 along with additional features related to the implementation of the project at a level of detail that allows researchers to understand and replicate its analyses

this thorough manual for advanced students and their supervisors and anyone researching or writing on the gospel of mark is the opening volume in an important new series of guides to advanced biblical research together with an essay on the current state of research and a discussion of the future of markan study it provides a chrestomathy of samples of markan research together with a review of recent dissertations and a full annotated bibliography

in this study the pavement marking visibility module of the tarvip model was validated by comparing field data from various studies to prediction results under similar conditions from tarvip next a comprehensive survey on the factors that affect pavement marking visibility and minimum rl levels was performed with key factors identified including pavement marking configuration pavement surface type vehicle speed vehicle type and presence of rrpms from these key factors a methodology of using tarvip to do a sensitivity analysis on factors modeled in it was developed the plan was executed and resulting rl values under typical conditions on united states roadways formed the basis of new recommendations finally limitations of the recommendations were analyzed and a plan for future research was presented this study was aimed at completing the research to develop and scrutinize minimum levels for pavement marking retroreflectivity to meet nighttime driving needs a previous study carried out in the 1990s was based on the carve model developed at ohio university and resulted in a table of minimum levels of pavement marking retroreflectivity values since then a newer more powerful analytical tool tarvip which was developed at the operator performance lab of the university of iowa overcomes a lot of limitations of the carve model and uses updated data that reflect the current states of vehicles and roadways in the united states
