every year about half a million men women and children in the united states die from the effects of using nicotine alcohol and illegal drugs one of every four american deaths yet research to solve this terrible problem is often perceived as less important than other types of biomedical investigation focusing on four major classes of drugs with the greatest social and economic impactâ nicotine alcohol opioids and stimulantsâ dispelling the myths about addiction examines what is known about addiction and what is needed to develop a talented cadre of investigators and to educate the public about addiction research the committee explores these areas economic costs of addiction what has been learned about addiction from research into basic neurobiology and the brain psychosocial and behavioral factors and epidemiology education and training of researchers and the research infrastructure public perceptions and their impact on public policy in this field this volume outlines the challenges and opportunities in addiction research today and makes recommendations to educators treatment professionals public and private institutions and others for how to build support for addiction research and treatment

american journal of nursing 2001 book of the year award in psychiatric mental health nursing building upon generic concepts and skills of caring and helping this book provides a foundation for addiction practice by health and social services professionals chapters emphasize the knowledge considered essential in every area and each chapter identifies the skills required and suggests topics for further study

is abstinence necessary what is the role of hypnosis what is the pink cloud this encyclopedic primer written in an easy question and answer format contains everything a clinician needs to know about substance abuse and addiction dr jerome david levin outlines the treatment of chemical and other addictions such as compulsive gambling compulsive sexuality and codependency he covers the full complexity of substance abuse diagnosis and treatment with a biopsychosocial approach and multimodal interventions ranging from detoxification and rehabilitation programs to cognitive and behavioral treatments self help groups and individual and family therapy a clear comprehensive book that presents an integrated picture of a complex phenomenon this primer can be profitably read either straight through or as a reference text

what we wish to offer you then is an updated professional resource that combines both clinical and scientific perspectives we hope this book will be helpful to professionals who are already treating addictive disorders and also to those who are just learning how to treat addictions we also encourage health professionals more generally to think of addictions as falling within their own normal scope of work and we have kept this in mind in our writing in addiction treatment it makes a difference what you do and how you do it and it is far easier to develop evidence based practice from the outset than to change already established habits page x

this book focuses on the most recent interventions and research in the area of offender drug treatment topics covered include strategies and alternatives to incarceration across criminal justice settings employment rehabilitation and related issues such as drug courts and clinical implications developed for practitioners working with drug abusing offenders students and policy makers it highlights the current situation facing the us criminal justice system with expanded capacities and needs largely fueled by drug abusing offenders

substance abuse and its social consequences are a major public concern for communities throughout the world the motivations and consequences are deeply imbedded within the social and political structures of all countries whether they be well established democracies or developing nations every culture shapes the meaning of and responses to substances such as marijuana and heroin over time and across locations but the broader drug issue has become universal as the sphere of the problem expands the experiences and solutions of each nation become more relevant to other countries international concern over substance abuse has intensified as a result of the rise in production use and trafficking of illicit drugs all over the world therefore the practical knowledge of policy development and abuse prevention and treatment strategies in the middle east have increasing relevance for the rest of the world

topless bars casino gambling needle exchange programs for drug addicts there s no question morality issues remain front and center in urban politics presenting a systematic analysis of culture war issues at the local level elaine sharp shows how american cities deal with these ongoing concerns drawing on a sample of ten strategically chosen cities she explains differences in how municipalities respond to controversies surrounding sex business abortion clinics legalized gambling gay rights and drug use by analyzing the relative importance of subculture economics and institutional arrangements in the disputes she points the way toward richer and more complete understanding

of how different cities respond differently to these hot button issues far more than a statistical study morality politics in american cities is a collection of fascinating stories of real people grappling with down to earth issues and real life drama richly informative case studies that will captivate students and interested citizens alike mayors public health directors activists and others speak their minds about the pros and cons of these controversies here are officials in one city confronting the vatican over funding for abortion services those in another battling a local university over its refusal to provide health benefits to gay partners of faculty members and still others mounting a massive community sponsored attack on topless clubs these stories provide detailed evidence to support classifications needed for comparing cities experience with each of the five morality issues they also corroborate inferences drawn from the comparisons by showing what considerations were in play as local officials grappled with these issues overall the study shows that cultural factors usually dominate policymaking in local politics except when specific economic interests are at stake and also observes that county level governments are more important than previously thought in terms of morality issue decisions as provocative as it is informative morality politics in american cities demonstrates that such issues same sex marriage for example are multidimensional and often difficult to resolve its conclusions however contingent mark an important step in the ongoing process of understanding important differences in approaches to these issues and clearly show how moral conflicts continue to define american politics

addiction treatment involves a variety of different practices and procedures used with different populations and which are designed to achieve different goals drug addiction and its treatment explains why no single treatment is effective for everyone with a drug addiction problem

abadinsky explores all aspects of the drug and alcohol abuse issue including the impact of drugs on our society history pharmacological impact of drugs on the body policy implications of drugs the criminal justice system response the effects treatment and prevention of abuse theories of use drug business and drug law enforcement reports on the latest data on drug concerns provide further examination of alcohol and explore the abuse of additional substances such as club drugs inhalants herbal stimulants and designer drugs the major drugs are arranged into depressants stimulants hallucinogens and cannabis

part of the new treating addictions series treating drug problems is full of practical information on assessing diagnosing and treating drug problems and represents an invaluable tool for anyone who works with clients experiencing drug dependence or addiction the popular series format includes assessment scales tables checklists and diagrams features such as dos and don ts and important things to remember problem solving scenarios self improvement techniques and suggested resources including an annotated bibliography and lists of contacts such as self help groups residential and outpatient treatment programs support groups and websites

drugs and crime are known to be correlated but the direction of causality and the magnitude of the relationship have not been well established we analyze the change in crime and in drug use pre and post treatment controlling for other covariates for our sample we find that treatment reduces drug use which in turn reduced drug decreases crime abstract
