it has often occurred to the author that there are two principal defects in the existing treatises on the game of whist the one that the principles of play are in general laid down as so many isolated and arbitrary conventions the reasons upon which such principles are based being seldom if at all and scarcely ever fully stated the other that suitable illustrations by which alone the principles can be brought forcibly home and fixed in the memory are almost entirely wanting the present work is an

attempt to supply these deficiencies with regard to the latter the author feels that nothing in point of illustration of principles can be so instructive as a selection of hands played completely through and accompanied by copious explanations the idea it is believed as applied to whist is a new one though a similar plan has long been in use in treatises on chess it has not been deemed necessary to occupy space by detailing the mode of playing and of scoring as this information can be readily acquired at the table the reader is therefore credited with this elementary knowledge and is conducted at once to the general principles which he is advised to consider carefully before proceeding to the hands

this book concentrates on the restatement of the law contained in part 5 of the criminal justice act 1993 it sets out the law and practice governing the commission of the criminal offence of insider dealing and of certain other securities market offences in the united kingdom in doing so it also places the relevant legislation into the context of securities law as a whole the historical background is explained and there is discussion of the way in which securities business is effected in the city and how it is presently regulated the book is practical in its approach and will therefore appeal to experienced practitioners and compliance officers

this text covers anti competitive agreements unilateral anti competitive practices and merger control within each section the law and penalties of competition law are discussed a comparison of pre clearance systems in merger control between europe and the uk is also covered

this volume examines critical issues that all developing countries must face subjects covered include an historical insight into and description of the legal system of a third world country considerations of intellectual property regimes and suggestions for

developing countries insights into the patterns of investment on a continent the bulk of whose members are third world countries and suggestions for establishing and strengthening legal arrangements in order to attract beneficial investment a critical examination of proposals made during the most recent gatt multilateral trade negotiations and pointers to global trends in the provision of financial services these chapters range from the historical to the contemporary from the descriptive to the analytical and prescriptive and from the theoretical to the empirical in toto the volume seeks to challenge scholars bureaucrats and technocrats in developing countries to critically and candidly examine the causes conditions and magnitude of underdevelopment and to propose and thoroughly critique options available to them as such the volume will be invaluable to researchers and officials involved with international development issues and third world studies
