involves the debate about sociopolitical ideologies underlying the meaning and application of the laws most notably colonialism and socialism finally the third engages with the theory of legal transplantation it addresses a hypothetical question of colonial laboratory as a form of legal transplantation a new concept that this book offers to the global scholarship it demonstrates that the colonial empire had tried to use vietnam as a laboratory for its legal reform and then transplanted the successful and feasible results back to the empire this book explains the distinctively ideological principles underlying the understanding and application of the law

property law in the society of equals is an account of the property law and its justificatory foundations it begins with the common worry that property is an inequalitarian institution and shows that contrary to the worry property is actually an essential constituent of a society of equals property law is the solution to the problem of yours and mine a moral problem about the impossibility of our relating to one another on terms of equality absent an institution that allows us to have things as our own this understanding of property not only shows why property is required for us to have equal relations it also provides a distinctive perspective on the ways in which our current institutions of property are defective from their own internal point of view and require radical reform the book uses this abstract account to explain contemporary property law the book explains private law doctrines including trespass licence nuisance acquisition transfer tenancy the law of servitudes it also illuminates the boundaries between property rights and personal rights and between property rights and contract rights and explores various liminal cases of property through that lens in addition the book critiques property internally showing how property s justification requires a state to provide homes to all of its subjects and showing how other parts of the public law of property including various forms of land use regulation should be understood as part of the law of property rather than external limitations on it

understanding property law provides a background to an area of law which is notoriously inaccessible standing back from their subject the authors of this book elucidate how the practices of the past have shaped the development and form of the modern law in doing so they stress the role of lawyers in the transactions such as sale gift and inheritance in which their clients become involved this focus upon the work which lawyers do in their offices provides a necessary complement to the emphasis on legislation and adjudication found in most textbooks this edition has been extensively revised and updated to incorporate recent legislative developments including the land registration act 2002

this book addresses core issues of personal property law in nigeria from a comparative perspective it offers a detailed account of the laws governing personal property and the different lightweight reforms undertaken mainly through case law before the enactment of the secured transactions in movable assets act in 2017 the book draws insights from the united states ucc article 9 being unarguably the first law that introduced the concept of modern secured transactions law and was influential to many common and civilian law systems in reforming their personal property laws given that personal property law is fairly new in nigeria and also in africa in general the main aim of the book is to provide judges and academic researchers with a rich collection of tested solutions from jurisdictions

that have experimented with modern secured transactions law for several decades the primary and secondary works that were referenced in the book have tracked the different epochal shifts in legal thinking and their significances this may assist scholars and judges in nigeria to come up with bespoke interpretations of the act and solutions to underlying problems on credit and security that will satisfy the local conditions as opposed to copying the unaltered solutions from the united states and other advanced systems

this book examines systematically the current systems of secured lending in china and hong kong where companies or individuals offer personal property as security for credit advanced by a lender valid and enforceable security reduces the risk to the lender and so lowers the cost of credit to the borrower however the hong kong system being largely derived from english law is highly complex and in need of root and branch reform the forces of inaction have triumphed and valuable opportunities to create a modern rational and efficient system have been squandered in china on the other hand a completely new system has been created in the last twenty years which whilst it has various problems and defects has some notable advantages over the common law equivalent found in hong kong
