provides solutions for all the end of chapter assignments

intermediate accounting presents accounting from the perspective of essential activities of business operating investing and financing students will see accounting as it is in the real world an essential component of the management function and decision making process

this fifth edition retains its emphasis on the full equity method whilst expanding its coverage of the cost and partial equity methods it also adds coverage of interim reporting corporate joint ventures sec accounting and estates and trusts

covers balance sheets inventories depreciation liabilities and financial statements

provides a manager s or professional s solid introduction to accounting almost entirely rewritten diamond integrates decision making and analysis within the context of a cash flow organization that makes sense to managers operating investing and financing

albrecht introduces students to basic accounting concepts excites them by using lots of real world examples both u s and international provides them with some basic accounting knowledge and then shows them how accounting is used and analyzed in actual case situations this book does not take an encyclopedic approach to every possible nuance of costing and cost management since students who desire that level of detail will find it in more advanced classes
