this book is on business and financial risk management in all forms of business organisations both public and private in nature coming from a modern business management perspective the book presents and details the modern sources and investment strategies used by investors in maximising value edition growth and development of their businesses it expands the potentialities of firm shareholders by extending businesses endeavours through innovation financial engineering and revolutions realising that most of the texts on business and financial risk management are research are subject specific regardless of the fact that most financial and investment methods and approaches today are contingent complementary and overlapping the book advances the argument that its high time that researchers consider coming up and applying research texts that are multi disciplinary and promoting interactions across related fields the richness and novelty of the book is premised on its attempt to offer business and financial risks all in one book which can be applied to different disciplines and situations more significantly and without overrating the potential of multi disciplinary research approaches the book provides additional insights and dimensions on origins evolutions and trends emerging in contemporary research the book is therefore bringing an important contribution to contemporary research debates and multi disciplinary discourses that have taken centre stage in recent years in many universities and across the world in dissemination of

knowledge aimed at turning the fortunes of modern businesses towards effective risk management and growth towards sustainable development the book is critically important to students and practitioners across fields and let alone businesses that are struggling to grow and develop due to weak risk management systems poor corporate governance and ethics frameworks

this is an open access book welcome to the proceedings of the international conference on strategic and global studies icsgs 2025 the proceedings are organized according to 5 themes related to strategic global studies such as the global security transformation amidst regional conflict cyber war and geopolitical rivalry inclusive digital economics and decolonization of regional development the rise of global halal industries impact potency and future asean china strategic relations towards new global order and management of social transformation most panel local knowledge and management of social transformation for national resilience disaster management and resolving global climate change

this book offers a fresh perspective on development economics specifically tailored to the unique challenges and opportunities facing developing economies drawing on the historical experiences of now developed nations it explores how emerging economies particularly in africa can finance their development reduce reliance on external aid modernise infrastructure and alleviate poverty the book emphasizes the crucial interplay between development economics and finance advocating for a synergistic approach to achieve efficient and effective growth recognising the increasingly multidisciplinary nature of modern research it champions a hybrid approach that merges economic and financial perspectives fostering a more comprehensive understanding of development challenges this book s unique contribution lies in its integrated

presentation of development economics and finance within a single cohesive framework by bridging these two critical fields it provides valuable insights into contemporary research trends and their practical applications across diverse disciplines and global contexts more than just a textbook it serves as a catalyst for debate on multidisciplinary approaches to development equipping students and practitioners with the knowledge and tools to navigate the complexities of economic growth in the developing world

this book stresses the importance of aligning developing countries economic activities towards sustainable development purposes a revamp of the financial systems of emerging economies is necessary to allow the financial resources needed for investment purposes to become readily available on these markets the failure of most countries to grow and develop is often caused by the inability of potential investors to access capital for investment purposes by modernizing the financial sectors of developing nations this book argues it is possible to industrialize their approaches to growth and development
