the international economy has seen much change over recent years and there is much talk in the media of the impact of emerging markets such as india and china giving a new perspective on international economics this engaging text addresses economics with a whole world perspective and puts emphasis on empirical study

developed in the classroom by two of the most prominent researchers in the field feenstra and taylor s international economics uses engaging applications to provide a modern view of the global economy for a modern audience most international economics textbooks emphasize theory and the economies of advanced countries feenstra and taylor combine theoretical coverage with empirical evidence throughout while reflecting the realities of the global economy by covering emerging markets and developing countries india china southeast asia the new edition has been thoroughly updated to include new data and applications as well as many new headlines to reflect the rapid changes in international economics during the last three years the 4th edition includes the latest on opening relations with cuba immigration and europe s refugee crisis the effect of nafta on wages and employment job polarization quicksourcing china s problems and the debate in britain about leaving the european union a modern textbook requires a modern and integrated homework system launchpad offers our acclaimed content organized for easy assignability by instructors and enhanced learning for students

developed in the classroom by two of the most prominent researchers in the field feenstra and taylor s international economics is a modern textbook for a modern audience connecting theory to empirical evidence and expanding beyond the traditional focus on advanced companies to cover emerging markets and developing economies essentials of international economics third edition is the brief version of that textbook designed for a one semester course covering both international trade and international macroeconomics the new edition has been thoroughly

updated including the latest on the eurozone crisis

this text presents the critical issues of international trade and finance trade theory includes partial equilibrium market analysis neoclassical trade models constant cost production factor proportions production and models of industrial organization the text integrates concepts from international finance and the basic models of open economy macroeconomics

this paper surveys the literature on the relationship between international trade and inclusive growth it examines claims that the rise in inequality in many countries can be attributed to the concurrent rise in trade competition especially from emes like china spurring trade tensions and protectionist measures the paper investigates the conflicting literature showing the aggregate benefits of trade versus the adverse and persistent impact of trade especially import competition on specific industries and local communities the paper then reviews the evidence for using trade policies and other complementary policies for adjustment and compensation to those groups adversely affected by trade

this book provides a detailed investigation into the decline in wages and employment of less skilled workers as a key factor underlying the social exclusion in europe and north america

developed in the classroom by two of the most prominent researchers in the field feenstra and taylor s international economics is a modern textbook for a modern audience most international economics textbooks emphasize theory and the economies of advanced countries feenstra and taylor s text anchors theoretical coverage to empirical evidence throughout while reflecting the realities of the global economy by covering emerging markets and developing countries india china southeast asia the new edition has been thoroughly updated including the latest on the eurozone crisis

in an era when trade and currency wars threaten to end a long standing period of growing trade and capital flows the economics of international trade investment and finance have become more important than ever this three volume encyclopedia provides a comprehensive and up to date overview of the theory and evidence on the causes and consequences of global trade and the

theory and evidence on the economics of international trade financial and monetary transactions it provides first of all a comprehensive set of entries explaining the key theoretical concepts in international economics as well as the latest empirical and simulation techniques used in the academic literature in addition various entries present the history behind and the controversies surrounding the core current global trade and monetary institutions from the world trade organization to the european monetary union the three volumes also provide a serious discussion of today's central policy debates including the impact of globalization on employment wages and income distribution the imposition of controls on international financial flows the effects of tariffs and protectionist policies fixed versus flexible exchange rate regimes and the role of the multinational enterprise on global growth technical change and income distribution among many others

quantitative analysis of newly evolving patterns of international trade offers a variety of perspectives on new forms and developments of international trade and related activities for japan the united states china and some other important trading countries to develop new methods and data for measuring the factor contents of emerging new modes of international trade such methods and data are crucially important for evaluating impacts of the new modes on factor markets in the united states japan and other major trading countries and also for forecasting the future development of world trade and foreign direct investment fdi evaluating welfare gains from trade estimating impacts of free trade agreements and designing effective trade and fdi policies

this second volume of the proceedings of the iea congress in athens covers those sessions dealing mainly with aspects of macroeconomics and econometrics

this collection of essays provides an examination of the essential aspects of modern macroeconomics that is ideally suited for researchers and graduate students in the field

outsourcing economics has a double meaning first it is a book about the economics of outsourcing second it examines the way that economists have understood globalization as a pure market phenomenon and as a result have outsourced the explanation of world economic

forces to other disciplines markets are embedded in a set of institutions labor government corporate civil society and household that mold the power asymmetries that influence the distribution of the gains from globalization in this book william milberg and deborah winkler propose an institutional theory of trade and development starting with the growth of global value chains international networks of production that have restructured the global economy and its governance over the past twenty five years they find that offshoring leads to greater economic insecurity in industrialized countries that lack institutions supporting workers they also find that offshoring allows firms to reduce domestic investment and focus on finance and short run stock movements

the purpose of this study is to analyze the interrelationships among four key economic concepts and examines the determinants of the relationships among them it considers the interrelationships among these concepts from both theoretical and empirical perspectives and their implications as they relate to public policy it provides general definitions along with brief discussions it also provides a review and non technical summary of the study and a statement published in 1992 by the economic council of canada

feenstra taylor offers the right amount of book for your course international macroeconomics is available as a separate volume for the international finance module the text seamlessly integrates established core content with topic areas and ideas that have emerged from recent empirical studies
