two scientific researchers kate rogers and dave matheson are working in the congo
when they mysteriously disappeared matheson is soon found on the sparsely
populated navajo reservation thousands of miles from where he d been working after
a family comes across him they get him to the chinle bia hospital where it is
discovered he has been brutally attacked by an unknown animal as he babbles
nonsense about foam quantum and dragons matheson screams about kate rogers and
how sorry he is matheson then dies a short while later from a severe bacterial
infection and his death is reported to james larkin in brussels at the itrc research
institute his partner and scientists kate rogers has not been heard from and presumed
lost or dead but no one knows where ed tevis larkin s lead scientist tells larkin that he
believes kate has been accidently swept back in time into an ancient world through a
time vortex created by larkins itrc quantum computer and that the markers created
will find kate larkin decides not to report matheson s death to the authorities but
insists on sending a party back to the congo to rescue rogers not because he cares
about her but because he wants to patent time travel and make millions of dollars
larkin tells gwyn stone his organization s attorney and fixer to contact seth conner a
prominent paleontologist and entice him to travel back in time to rescue kate using
whatever it takes conner is skeptical of the time continuum theory but after stone
offers him a large sum of money to go he decides to take the risk seth understands if
he actually goes back in time and succeeds in finding kate rogers alive that s only half
the battle getting back home is the other half which will completely depend on them
keeping the single marker he has and with it locating a vortex then be able to open it
near flat land with running water that proves difficult since they are prey to many
ancient animals fail and all is lost even if they both survive there is the chance they
could be stranded in the cretaceous world where dinosaurs are kings living breathing

and eating a lethal world that to date seth connor had only studied by digging up bones of these ancient beasts can he do this is kate still alive jurassic time riders is a suspenseful story one full of action and adventure focused on seth connors journey to find kate rogers stuck in the past if they survive this dangerous lethal world will they get back home
