should frederick jackson turner be revered as the father of western history or reviled as a misguided advocate of a frontier spirit and rugged individualism that denied cultural diversity and produced widespread environmental destruction dividing into campus over the issue western historians place him everywhere from one end of the spectrum to the other in this provocative new interpretation of turner s life work and legacy wilbur jacobson challenges the views of traditionalists and views of traditionalists and revisionists alike from extensive research in the turner archives a nationwide search for additional turner correspondence interviews with historians and a lifetime of collecting turner anecdotes jacobson chronicles turner s professional and sometimes personal bequest through 100 years of

western historical writing jacobson adds his voice to the heated debate by mixing a sophisticated critique of historical writing with stories of professional intrigue the fights to protect turner's legacy limit access to the turner archives and control the western history association he traces the intellectual development of turner's frontier theory explores the intense rivalry between two major turnerian disciples frederick merrell and ray a. billington as they vied for control of turner's legacy and analyzes the efforts of new western historians who seek to erase turner and billington from the landscape of what is now called the history of the west balanced in his assessments jacobson treats turner and his disciples with a sympathetic yet critical eye he points out turner's limitations in dealing with environmental racial ethnic and urban themes as well as the shortcomings of merrell billington and other turnerians at the same time however jacobson illuminates the major contributions of their work despite their intense differences jacobson argues all western historians remain inextricably linked by turner's legacy
