islamic finance has been growing faster than conventional finance for most of the past decade it has done this on a model of finance that rejects interest and promotes profit sharing how is this possible yet the wealth potential of islamic finance is far from being its most attractive feature what is most compelling about islamic finance are its ethical principles and strong corporate governance based on shariah law this second edition explains and updates how conventional financial products work from mortgages and leases to trade finance and insurance before delving into their islamic versions and contains three new topics on microfinance the ethical company and wealth succession about the authors daud vicary abdullah has been in the finance and consulting industry for more than 40 years and has focused solely on islamic finance since 2002 at hong leong islamic bank he was instrumental in transforming an islamic banking window into a full fledged islamic banking subsidiary today he helms in ceif international centre for education in islamic finance the global university for islamic finance set up by bank negara central bank of malaysia in december 2005 he is also a frequent speaker and commentator on matters relating to islamic finance keon chee is a senior executive in singapore where he oversees the wills trusts and corporate services businesses in his firm he has many years experience in investment research derivatives financial training and insurance he obtained an mba from columbia university and an ll b hons from the university of london and enjoys using his broad background in helping clients with their estate planning needs he is also co author of the best selling make your money work for you

the objective of organizing economic activities in any nation is the production of products and services to satisfy human wants in the modern era however where division of labor and specialization are on the rise those who produce products and services are not typically the same as those who consume or use them consequently it is necessary to substitute one commodity for another barter required a double coincidence of desires b needed to possess both what a desired and what a could offer in exchange this arrangement restricted the types of transactions that could be conducted occupied additional time that could have been spent on production and impeded the specialization of production the limitations that the barter system placed on human ambitions lead to the evolution of money

the recent turbulence in the global financial markets has drawn attention to an alternative system of financial intermediation islamic banking and finance which has so far remained on the sidelines of the unrest islamic finance in a nutshell is a quick and easy guide to understanding the fundamentals of islamic finance and how the islamic financial markets work designed as a quick read for practitioners needing to pick up the basics of the industry it will enable readers to understand the differences islamic and western finance starting with the rise of islamic finance the book highlights the key areas which practitioners need to grasp to understand the marketplace including financial statement analysis sharia a law making money in the absence of interest and regulation the book also provides readers with a basic guide to arab terminology and a guide to the top financial institutions within the islamic markets this is an ideal guide for anyone with an interest in how these financial markets work but who do not want to be bogged down in complex and unnecessary terminology

this book introduction to islamic banking and finance an economic analysis covers the basic principles of islamic economics and finance it discusses both the theory of islamic economics and finance as well as the applications in the design of instruments of finance as well as islamic financial institutions the book enables its readers to gain an understanding of the structures and operations of islamic banking islamic capital market investments risk management and taxation for islamic banking contracts the book sets forth the following objectives

the islamic way of dealing with business transactions is unique with the guidance from syariah principles muslims are prohibited to engage in any activity which can cause harm to other traders or consumers nowadays islamic finance is accepted and is gaining popularity in the financial market environment due to its success in attracting people especially investors from the gulf countries it is also due to the rising demand from non muslim investors for ethical financing and investment this change in the financial landscape led to the idea to write this book which gives an in depth insight into the basic idea or concepts used in islamic finance although this book emphasizes on the application of islamic finance in malaysia the underlying application is more or less the same for other countries adopting islamic finance tools this book is divided into five chapters chapter 1 looks at the overview of islamic finance and banking a thorough understanding of the function of money capitalist economy and commonly used modes in islamic finance and banking such as musyarakah mudharabah murabahah and ijarah are essential for understanding the other topics

covered in this book chapter 2 provides an understanding on interest rates in the context of time value of money price expectation and business cycles chapter 3 is on riba from an islamic perspective it looks at the definition of riba the prohibition of riba types and classification of riba and the difference between riba and profit chapter 4 focusses on the islamic capital market which includes islamic money market islamic banking and islamic insurance the chapter shows the commonly used islamic capital market instruments such as sukuk islamic syariah equity and islamic real estate investment trust reits finally chapter 5 deals with islamic financial institutions and market regulators which lay the foundation for and development of islamic finance these international bodies and regulators are the islamic financial services board ifsb international islamic financial market iifm and accounting and auditing organization for islamic financial institutions aaofi the chapter also discusses regulators in malaysia such as bank negara malaysia bnm securities commission sc and labuan financial services authority fsa in addition this final chapter explains some laws in malaysia which relate to islamic finance and banking

introduction to islamic banking and finance is a succinct guide to the key characteristics of islamic banking highlighting how these differ from conventional banking this detailed book illustrates how islamic banking is consistent with the sharia a a key element of which is the prohibition on collecting and paying interest this central religious precept appears to rule out most aspects of modern finance but it does allow money to be used for trading tangible assets and business which can then generate a profit brian kettell s book looks at all aspects of islamic banking including chapters on its creation and evolution through to detailed discussions of the issues involved in the sharia a contracts of murabaha mudaraba musharaka ijara istisna a and salam islamic insurance takaful is also covered finally the book takes a look at sharia a law and sharia a boards indicating the roles and responsibilities that come with membership islamic banks have been operating in places such as bahrain saudi arabia malaysia and dubai for some time conventional bankers have traditionally viewed the sector as a small exotic niche but recent years have seen a dramatic surge in popularity a number of western investment banks have started working with muslim clerics to create new ranges of financial products designed for devout muslims a large and growing market although estimates of the size of the islamic finance industry vary greatly everyone agrees that it is expanding rapidly and this is the perfect book for anyone looking to understand the industry

from the world's foremost authorities on the subject the number one guide to islamic finance revised and updated for a post crisis world because it is entirely equity based rather than credit based islamic finance is immune to the speculative bubbles and runaway volatility typical of western finance especially now in the wake of the global financial crisis this has made them increasingly attractive to institutional investors asset managers and hedge funds in search of more stable alternatives to conventional financial products with interest in islamic finance swiftly spreading beyond the muslim world the need among finance and investment professionals has never been greater for timely and authoritative information about the rules governing islamic finance this thoroughly updated and revised second edition of the premier guide to regulatory issues in islamic finance satisfies that need addresses the need for banks to develop common islamic based international accounting and auditing standards clearly explains the key differences between shari'ah rulings standardization of acceptable banking practices and the development of standardized financial products explores the role of the shari'ah boards in establishing common rules regarding the permissibility of financial instruments and markets offers guidance for regulators seeking to adapt their regulatory frameworks to the needs of the fast growing islamic finance sector
