until recently philosophers tended to be suspicious of the concept of need contributors to this volume build on recent work

establishing its philosophical importance david wiggins gillian brock and john o neill propose remedies for some mistakes made in ignoring or marginalising need for example in need free theories of rationality or justice christopher rowe soran reader and sarah miller highlight insights that emerge when the concept of need is explored through plato aristotle and kant and others that emerge when historical work is seen through the lens of need jonathan lowe and garrett thomson consider the role need plays in the philosophies of action and mind bill wringe david braybrooke and sabina alkire debate how our obligations relating to need are best understood and articulated and how we can best ensure they are fulfilled exploring for example how talk of need is related to talk of rights well being or capability

this scarce antiquarian book is a facsimile reprint of the original due to its age it may contain imperfections such as marks notations marginalia and flawed pages because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work

delve into the profound depths of metaphysics with henri renard s the philosophy of being this insightful work offers a comprehensive exploration of the fundamental principles of being presenting readers with a thorough understanding of classical metaphysical thought and its enduring relevance to contemporary philosophical inquiry henri renard s j a distinguished philosopher and jesuit scholar masterfully guides readers through the complexities of metaphysics focusing on the nature of existence and the essence of reality the philosophy of being is rooted in the rich tradition of thomistic philosophy drawing extensively on the works of st thomas aquinas and other great thinkers of the scholastic tradition the book covers key metaphysical concepts such as substance essence existence causality and the nature of god renard s clear and systematic approach makes these abstract ideas accessible providing readers with a solid foundation in metaphysical principles he carefully examines the interplay between potentiality and actuality the hierarchy of being and the relationship between essence and existence offering a cohesive and comprehensive overview of metaphysical thought his rigorous analysis and thoughtful reflections make this book an invaluable resource for students of

philosophy theologians and anyone interested in the foundational questions of metaphysics the philosophy of being is not only an academic treatise but also a profound meditation on the nature of reality and our place within it join henri renard on a journey through the timeless questions of metaphysics and discover the philosophical principles that lie at the heart of the nature of being the philosophy of being is a timeless exploration of existence that continues to inspire and challenge readers to contemplate the mysteries of reality

a brief history of the philosophy of time is a concise and accessible survey of the history of philosophical and scientific developments in understanding time and our experience of time it discusses prominent ideas about the nature of time plus many subsidiary puzzles about time from the classical period through the present

in what sense does time exist is it an objective feature of the external world or is its real nature dependent on the way man experiences it has modern science brought us closer to the answer to st augustine s exasperated outcry what then is time ever since aristotle thinkers have been struggling with this most confounding and elusive of philosophical questions how long does the present moment last can we make statements about the future that are clearly true or clearly false and if so must we be fatalists this volume presents twenty three discussions of the problem of time a section on classical and modern attempts at definition is followed by four groups of essays drawn largely from contemporary philosophy each prefaced with an introduction by the editor first in a chapter entitled the static versus the dynamic temporal four philosophers advance solutions to mctaggart s famous proof of time s unreality in the next two sections the discussion turns to the meaning of the open future and to the much debated nature of human time finally modern science and philosophy tackle zeno s celebrated paradoxes

herbert spencer was an english philosopher and prominent social theorist of the victorian era in his work the philosophy of style he argues that written language should be as easy to understand as possible allowing for the most effective and efficient possible communication his suggestions for sentence structure supported ideas on formalist rhetoric

critical study of vākyapadīya of bhartr hari classical work on the philosophy of sanskrit grammar

one of the world s most influential logicians jaakko hintikka is a leading figure on the international philosophical scene here he responds to his critics the 27 critical and descriptive essays in this book written by important scholars from a variety of fields challenge hintikka s innovations in philosophy logic and linguistics his replies and the essays themselves all previously unpublished form a lively provocative exchange of ideas also included is an intellectual autobiography and a complete bibliography of hintikka s writings
