seminar paper from the year 2006 in the subject orientalism sinology islamic studies grade 13 ben gurion university middle east institute course middle east economics language english abstract the islamic banking system is a relatively young institution that gains influence not only in the islamic world but also in non muslim countries with big muslim communities the first islamic bank dubai islamic bank was erected in 1975 today about 265 islamic finance institutions operate in more than 70 countries and their assets have increased more than 40 fold since 1982 to exceed 230 billion more and more western banks erect islamic branches the first was citibank in 1996 this paper discusses the influence of an islamic banking system on the start up of young innovative businesses a negative influence would hinder these businesses to develop if not counterbalanced by other measures like state involvement in non muslim countries it would constrain religious muslims from participating in the contemporary economical changes determined by an opening up of markets and privatization which requires the start up of new businesses the islamic banking system operates according to islamic law hence several islamic restrictions the most important is the prohibition of riba interest limit its freedom to develop suitable financing instruments for the support of young innovative businesses these restrictions enlarge the risk of the bank especially when financing these businesses so the bank either avoids these businesses or tries to bend the islamic law and operates de facto like a conventional bank in this case however the bank is facing problems with the religious supervisory board an integral part of every islamic bank which will stop the bank from deriving from the islamic law sharī a after discussing these determinants i will discuss the existing interest free financing instruments of islamic banking suitable for the start up of

this is how islamic banking really works in a sector where publications focus on theory the islamic banking in practice series concentrates solely on market practice the evolution of principles into practice is explained clearly and concisely sukuk sukuks sometimes referred to as the islamic version of bonds are one the most visible products in islamic banking and finance and with a global reach this volume will explain why sukuks were created and how they work the different

structures of sukuk will be explained and reinforced through detailed analysis of market transactions areas covered include issuance process pricing asset injection risk management shariah compliance chapter headings include common sukuk structures ijara musharakah mudarabah wakala murabaha project finance perpetual equity linked exchangeable hybrid shariah compliance aaoifi developments credit rating defaults the issue of a true sale

based around 13 individual cases this book will stimulate discussion and develop the reader s understanding of islamic finance by contrasting their existing theoretical knowledge against practical examples

a critical study of the interpretation of riba in islam the attempts of islamic banks to put the interpretation into practice the problems associated with these attempts and an argument for rethinking the interpretation

introduction to islamic banking and finance is a succinct guide to the key characteristics of islamic banking highlighting how these differ from conventional banking this detailed book illustrates how islamic banking is consistent with the sharia a a key element of which is the prohibition on collecting and paying interest this central religious precept appears to rule out most aspects of modern finance but it does allow money to be used for trading tangible assets and business which can then generate a profit brian kettell s book looks at all aspects of islamic banking including chapters on its creation and evolution through to detailed discussions of the issues involved in the sharia a contracts of murabaha mudaraba musharaka ijara istisna a and salam islamic insurance takaful is also covered finally the book takes a look at sharia a law and sharia a boards indicating the roles and responsibilities that come with membership islamic banks have been operating in places such as bahrain saudi arabia malaysia and dubai for some time conventional bankers have traditionally viewed the sector as a small exotic niche but recent years have seen a dramatic surge in popularity a number of western investment banks have started working with muslim clerics to create new ranges of financial products designed for devout muslims a large and growing market although estimates of the size of the islamic finance industry vary greatly everyone agrees that it is expanding rapidly and this is the perfect book for anyone looking to understand the industry

deep insightful analysis of controversial risk management issues in islamic banking mapping the risks and risk management practices in islamic banking is a comprehensive analysis of the current state of risk management practices within the islamic banking industry with recommendations for policy makers bankers and industry stakeholders going beyond the academic this book presents the opinions and perceptions of industry financiers and bankers alongside primary information and data collected by islamic finance professionals to deconstruct and analyze the sector s current risk management practices you ll get up to date on the latest attitudes and trends and delve into the current issues surrounding risk management in islamic banks with a focus on practical applications this authoritative guide discusses the unique risks facing islamic banks from the perspective of a wide range of practitioners risk management is one of the biggest most

controversial issues in islamic finance yet it remains under researched many uncertainties exist for which the answers are still unclear yet will play a large role in shaping the industry s future this book digs deep into current ideas and practices to discover what s being done what needs to be done and what needs to stop happening to keep the future of islamic finance strong explore both islamic and traditional attitudes toward risk examine current islamic risk management practices understand the latest industry issues and trends consider the diverse range of risks unique to the islamic banking sector effective risk management in islamic banking deserves priority attention unless the industry develops its own genuine risk management architecture it cannot achieve its full potential and the viability needed for a more resilient financial system than the debunked wall street model mapping the risks and risk management practices in islamic banking provides a deep authoritative analysis of where the industry is today and where it needs to develop

this book presents empirical research that addresses the latest issues and innovative products in islamic banking and finance around the world chapters from expert contributors cover a wide range of topics including the various issues in stock markets an overview of takaful a roadmap for introducing islamic finance to uncharted territories and an in depth analysis of the current challenges case studies and statistics provide up to date information that can be used for future research this book will be of interest to academics and researchers who wish to learn more about the challenges of islamic finance and economics
