this book is a collection of my experience teaching lower elementary technology over the course of one year there are lessons curriculum documents and thoughts regarding many issues that can arise while teaching technology to young children this book is intended to be a reference for those who are interested in starting from scratch or for those who are looking for new ideas on how or what to teach regarding information literacy

from the introduction what kind of knowledge and skills can your child be expected to learn in second grade at school how can you help your child at home these are questions that we try to answer in this book it presents the sort of knowledge and skills in literature reading and writing history and geography visual arts music mathematics and science that should be at the core of a challenging second grade education because children and localities differ greatly across this big diverse country so do second grade classrooms but all communities including classrooms require some common ground for communication and learning in this book we present the specific shared knowledge that hundreds of parents and teachers across the nation have agreed upon for american second graders this core is not a comprehensive prescription for everything that every second grader needs to know such a complete prescription would be rigid and undesirable but the book does offer a solid common ground that will enable young students to become active successful learners in their classroom community and later in the larger communities we live in town state nation and world bonus this edition includes an excerpt from what your third grader needs to know

this book constitutes the refereed proceedings of the 6th international workshop on learning technology for education in cloud ltec 2017 held in beijing china in august 2017 the 16 revised full papers presented were carefully reviewed and selected from 37 submissions the papers are organized in topical sections on learning technologies learning tools and environment online learning and mooc problem solving and knowledge transfer
