in traditional bond markets sovereign bonds provide benchmarks and serve as catalysts for the corporate bond market development contrary to the usual sequence of bond market development sovereign issuers are latecomers to sustainable bond markets yet our empirical study finds that sovereign green bond issuance can have quantitative and qualitative benefits for the development of private sustainable bond markets our results suggest that both the number and the size of corporate green bond issuance increase more in a jurisdiction after the sovereign debut the results are more pronounced in countries with stronger climate policies sovereign green bond issuance also improves the quality of green verification standards in the corporate bond market more generally consistent with the aim of fostering third

party reviews and promoting best practice in green reporting and verification finally our work provides evidence that the sovereign debt increases liquidity and diminishes yield spreads of corporate green bonds in the same jurisdiction

provides a comprehensive survey of the east asian bond markets identifies best practices for fostering their development and presents a broad agenda for further reforms east asia s spectacular economic performance over the past several decades has been marked by macroeconomic stability consistent growth low inflation the lowering of trade barriers and an overall improvement in living standards the region now has a well developed banking system and boasts four of the top 20 stock markets in the world its bond markets however are relatively small and at an early stage of development this report provides a comprehensive survey of the east asian bond markets identifies best practices for fostering their development and presents a broad agenda of reforms for their further development the report which is based on studies of bond markets in china hong kong indonesia the republic of korea malaysia the philippines singapore and thailand finds great diversity among those markets it was presented at the emerging asian bond market conference co sponsored by the world bank and the hong kong monetary authority and held in hong kong june 26 27 1995 it is believed that with the proper institutional prerequisites in place the markets will grow very rapidly and become a leading source of financing for the region the study and this conference mark the world bank s increasing support and participation in the development of bond markets in the region joseph yam chief executive hong kong monetary authority

this conference proceedings of the second round table on capital market reforms in asia held in tokyo in april 2000 which was organised by the oecd and the asian development bank institute adbi focused on bond market development in asia
