originally published in 1892 the object of this handbook is to supply readers and speakers with a lucid but very brief account of such names as are used in allusions and references whether by poets or prose writers to furnish those who consult it with the plot of popular dramas the story of epic poems and the outline of well known tales the number of dramatic plots sketched out is many hundreds another striking and interesting feature of the book is the revelation of the source from which dramatists and romancers have derived their stories and the strange repetitions of historic incidents it has been borne in mind throughout that it is not enough to state a fact it must be stated attractively and the character described must be drawn characteristically if the reader is to appreciate it and feel an interest in what he reads this work an american reprint of the reader s handbook by e cobham brewer while retaining all of the original material that can interest and aid the english speaking student gives also characters and sketches found in american novels poetry and drama

may all that you wish to protect burn to ashes having witnessed the staggering power of the shadow monarch jinwoo can t wait to level up and reach those heights and what better way to do so than to mobilize his army of soldiers against an s rank dungeon s worth of giants saving a country abandoned by the rest of the world has its benefits international renown the expansion of his guild an invitation to the most prestigious hunter conference in the world but perhaps the most unexpected bonus is a run in with another monarch who brings not so welcome tidings if he s to be believed a war is coming that not even jinwoo is strong enough to stop
