this book explores the provocative hypothesis of whether it is ethical to grant legal personality to artificial general intelligence agi it delves into the nature of agi contrasting it with narrow ai and examining its capabilities and limitations the concept of legal personality is dissected drawing parallels with corporate entities and historical precedents ethical theories are applied to assess the moral status and potential rights and responsibilities of agi the book addresses the practical implications of such a paradigm shift including regulatory socio economic and technological challenges it incorporates case studies thought experiments and comparative analyses of international legal systems public perception cultural attitudes and media influence are also considered highlighting societal impacts and the importance of education counterarguments and ethical dilemmas are explored presenting alternative viewpoints and solutions to potential controversies the concluding chapters look towards the future offering recommendations for policy and practice this comprehensive examination is supported by additional resources making it an essential read for anyone interested in the intersection of ethics law and advanced ai

this concise anthology of 31 readings on the philosophical theories of morality is organized according to type of moral theory utilitarianism egoism virtue ethics the ethics of care etc and contains a separate chapter devoted to each type reading selections in the chapters provide a balance of both classical and contemporary philosophical writings representing a spectrum of viewpoints on each theory in one concise volume readings have been selected to be accessible to introductory students in ethics or moral theory and include brief introductions

for decades teachers and practitioners have turned to frederic g reamer s social work values and ethics as the leading introduction to ethical decision making dilemmas and professional conduct in practice a case driven concise and comprehensive textbook for undergraduate and graduate social work programs this book surveys the most critical issues for social work practitioners this sixth edition incorporates significant updates to the national association of social workers code of ethics and discussion of challenging issues related to cultural competency antiracism moral injury human rights environmental justice ethical humility non western perspectives on ethics and practitioner self care reamer also focuses on how social workers should navigate the digital world through discussion of the ethical issues that arise from practitioner use of online services and social networking sites to deliver

services communicate with clients and provide information to the public and he examines the standards that protect confidential information transmitted electronically he highlights potential conflicts between professional ethics and legal guidelines and expands discussions of informed consent confidentiality and privileged communication boundaries and dual relationships documentation conflicts of interest and risk management conceptually rich and attuned to the complexities of ethical decision making social work values and ethics is unique in striking the right balance among history theory and practical application

in search of consistency is the most comprehensive examination to date of moral theories and animal ethics this large volume unveils and explores the work of tom regan rights theory peter singer utilitarian paul taylor environmental ethics and andrew linzey theology not only digging deep into critical analysis of extant theories but feeding the flames of a now flourishing dialogue at the intersections of animal ethics environmental ethics and religious ethics this book ultimately presents a new approach the minimize harm maxim which exposes through real and hypothetical scenarios common practices as patently irrational and raises questions few authors are willing to entertain about the way we value life and our attitudes toward death at every turn in search of consistency reminds that ethics carry an expectation of action that ethics are intended to guide how we live

c s lewis continues to fascinate scholars and non scholars alike he was a scholar of abiding significance who was widely read was highly knowledgeable and did not hesitate to take positions that put him at odds with his contemporaries he was also a writer of great skill so that he was able to write not just works of great erudition but works of great popularity lewis is probably best remembered today for his the chronicles of narnia stories but he also wrote science fiction and imaginative allegories and even poetry that merit attention but lewis probably continues to be as popular and widely read as he is because of his christian faith that pervaded his life and as a result permeates the wide variety of writings that he left as a legacy lewis s christian faith was not easily gained and is not facilely understood his was a complex faith born out of deep thinking about fundamental questions his faith was also tested by significant human and spiritual challenges to which he responded often outwardly and publicly in his writings this volume addresses many of the issues surrounding lewis through incisive essays on his theology his fiction and his scholarship

there is a seeming dichotomy in c s lewis s writing on the one hand we see the writer of argumentative works and on the other hand we have the imaginative poet lewis also found this dichotomy within himself when he was a rationalist and atheist he found that these two sides of him were pulling in different directions he believed that his rationalist side could not be reconciled with his imaginative side once he became a christian he eventually found a means of marrying the two principally through story and myth within c s lewis studies there is also a common conception of lewis as a modern rationalist philosopher i e a rationalist who thinks arguments and his arguments in particular are the last answer on the questions he undertakes reasoning beyond reason attempts to take this view to task by placing lewis back into his pre modern context and showing that his sources and influences are classical ones in this process lewis is viewed through the idea that imagination and reason are connected in an intimate way they are different expressions of a single divine source of truth and there is an imagination already present upon which reason works lewis s transpositional view of imagination implicitly pushes towards a somewhat radical position the imagination is to be seen as theological in its reliance upon something more than the merely material it necessarily relies on a transcendent funding for its use and meaning in other words the imagination is a well source for what we might normally label rational

one of the broadest and most balanced accounts of the capital punishment debate the leviathan s choice explores the death penalty from four distinct perspectives philosophical theological social science and legal and includes scholarly essays on both sides of the debate an ideal reader for students and policy makers this book is essential for everyone following the arguments surrounding the death penalty

moral philosophy is the study of how one should live this anthology is an introduction to the that great subject the readings cover the main moral theories and present a wealth of ideas about various practical matters

the eleventh edition of this renowned topically organized anthology provides a superb balance of historical selections and recent material the text covers reason and religious belief human knowledge mind and its place in nature determinism free will and responsibility and morality and its critics in five parts with careful attention to opposing points of view

defends a concept of natural law ethics in a postmodern setting of doubt regarding natural law

Carefully selected articles produce a balanced discussion of issues. This edition includes expanded coverage of ethical theory, affirmative action, and corporate responsibility. Women's issues are now integrated throughout the book instead of in a single chapter. A separate casebook with over 100 additional problem cases is also available, shrink-wrapped with the text.

Using a participatory approach to teaching ethics in global politics, this book compiles classroom-tested exercises for use in courses related to world affairs.

Examines both sides of the issues of childhood and society, including working mothers, older women as parents, transracial adoption, gender differences, early childhood spanking, only children, divorce, television, middle childhood, boys vs. girls, latchkey children, home schooling, adolescence, bilingual education, values, abstinence education, sex education, gangs, and more.

List of members in v. 1

Widely praised for its balanced treatment of computer ethics, ethics for the information age offers a modern presentation of the moral controversies surrounding information technology. Topics such as privacy and intellectual property are explored through multiple ethical theories, encouraging readers to think critically about these issues and to make their own ethical decisions.
