how exactly is money laundered the answer to this question is not well understood and for this very reason costly prevention measures remain ineffective this much needed book provides the first in depth explanation of the methods used by intelligent criminals to amass wealth from large scale trafficking in drugs arms and human beings as well as from less odious crimes the author shows clearly not only why existing approaches to combat money laundering are bound to fail but also how money launderers easily circumvent such measures based on qualitative interviews with both alleged criminals and prevention experts detailed illustrations of concrete steps taken by intelligent and specialized perpetrators of money laundering allow practitioners to anticipate and effectively combat this type of crime the author fully documents such aspects of money launderers behaviour as the following resources required dealing with detection risks and international mobility a central chapter covers in depth the various markets institutions and facilities that are particularly favourable to money laundering and original insights accompany the presented findings with relevant quotations from the interviewees the author offers tailored recommendations for different professional groups including bankers prosecutors defence lawyers and judges in its critical questioning of the logic behind anti money laundering regulations and their costly implementation the book demonstrates that either the existing measures of prevention are drastically tightened and extended to almost all branches of the economy or the financial sector is relieved of the burden it bears and alternative ways of fighting this type of crime are sought instead it will prove enormously valuable to understanding and investigating white collar and financial crime and be welcomed by practitioners and professionals in financial markets banking criminal lawyers and compliance experts as well as academia

the routledge handbook of political risk explores the context analysis and management of political risk arising from recent tectonic geopolitical challenges to the world order posed by pandemics nationalist policy interventions changing supply chains technological transformation and the climate crisis seasoned and emerging academics from the global north and south alongside risk practitioners and business professionals from multiple continents and industries reconsider and address policy oriented questions in relation to social political democratic environmental economic security technological and geopolitical challenges across five distinctive parts this handbook considers ethical risks populism weaponised interdependence protectionism the disruptive effects of ai company case studies industries and political risk management while also reconsidering the future of political risk the volume will appeal to scholars and students of international business and management studies political science area studies security studies geography history and sociology in the absence of functioning global governance to mitigate such risks it will also be of great use to a range of consultants investors business practitioners and corporations

this book explores the impact on eu member states of intensified european cooperation in the field of vocational education and training by employing the varieties of capitalism approach as an analytical framework it seeks to bridge diverging views from an innovative standpoint while many experts argue that eu policies liberalize national training systems in spite of being soft law varieties of capitalism argues that these policies do not produce a convergence of national institutions the book maintains that european instruments such as the european qualifications framework and the european credit system for vocational education and training are indeed biased towards liberal training regimes on the basis of case studies on germany the netherlands and england it shows that the initiatives were implemented in line with national training systems thus european soft law does not lead to a convergence of training regimes or as the book posits of welfare states in general

master s thesis from the year 2012 in the subject leadership and human resources miscellaneous grade 1 8 berlin school of economics and law lord ashcroft institute of management course mba seminar language english abstract in 1949 the german constitution set down the entitlement to equality for men and women in the federal republic of germany in article 3 until the late 1950s it was up to men to decide where to live and how to utilise families assets women were not permitted to decide about their participation in the labour market but had the duty to administer the household and help their husband when angela merkel became chancellor of germany in 2005 she was not only one of the most influential politicians in the world but also one of the few female leaders who managed to break through the glass ceiling chancellor merkel herself blocked minister of employment ursula von der leyens attempt towards affirmative action the fact of the matter is that germany is lagging behind when it comes to women in leading positions in 2010 only 0 9 of the leadership positions in the 100

largest german companies and 26 in the top 200 companies are held by women holst wiemer 2010 this is in stark contrast with the fact that at team leader level in german companies women represent 20 of staff after being almost 60 of university graduates this underrepresentation is especially difficult to understand since recent studies have shown a positive correlation between the proportion of women in management positions and companies performance which made approximately 10 more in terms of profits with a balanced gender policy wiemer 2010 as a consequence germany is facing a discussion on the introduction of a women s quota for management positions in german companies currently there is a great debate on going concerning the pros and cons of a women s quota
