the only book to deliver essential knowledge specific to the needs of enps edited by the american academy of emergency nurse practitioners this authoritative resource encompasses the full scope of holistic evidence based practice across the lifespan and

serves as a comprehensive certification review for emergency nurse practitioners. It is the only book written specifically for this specialty practice; it delivers essential core knowledge for ENPs in all relevant programs and practice arenas. The book's four editors, 57 authors, and 15 reviewers—all recognized leaders in the field—present the most current knowledge available in a clear and succinct format, incorporating diversity and inclusion throughout. This resource contains all essential information needed for the provision of skilled care, including the history and development of ENP, fundamental clinical skills, management of medical emergencies (shock and trauma) and environmental emergencies, toxicology, emergency medical services, and disaster preparedness, and the needs of special patient populations. All according to the most current evidence-based research and guidelines. Key features: Edited and authored by the American Association of Emergency Nurse Practitioners (AAENP), provides succinct and pertinent details regarding patient management and care, addresses complexity and the need for acuity in the ENP setting, mirrors the AAENP certification blueprint for use as a certification review guide. Each chapter consistently written to include learning objectives, medical screening, physical examination, diagnostic testing, medical decision making, and differential diagnosis, management, and patient disposition.

A unique case-based approach to learning how to apply pharmacotherapeutic concepts to specific patient situations. A Doody's Core Title for 2017. *Pharmacotherapy: Principles and Practice*, Study Guide, Fourth Edition, delivers more than 100 patient cases that correspond to chapters in the fourth edition of *Pharmacotherapy: Principles and Practice*. These cases are presented in a consistent manner similar to what you would see in a clinical setting and focus on a specific topic or disorder. For each case, you are asked to develop a patient database, drug therapy problem worksheet, and pharmacotherapy care plan using the forms provided with *Pharmacotherapy: Principles and Practice*, Study Guide. You will learn how to navigate through the process of applying your knowledge of pharmacotherapy to specific patient cases by organizing patient data to logically assess a patient's medication issues and formulate a sound pharmacotherapy care plan. Each case includes patient presentation, medical history, physical examination, targeted questions, follow-up, global perspective (which highlights an issue related to the case that is important to countries outside of North America or involves selected ethnic groups or races), case summary, student workup (where you are asked to review the patient case for missing information and to complete the various patient forms).
