from the legendary pop artist who has given the american songbook an unparalleled number of unforgettable hits comes the  
definitive guide for aspiring songwriters

please note this is a companion version not the original book sample book insights 1 the truth is that most amateur songwriters  
do not have a chance of being heard by anyone of importance the primary factor that separates the rejected amateur songwriter  
from the accepted professional is that most amateurs do not regard the writing of songs as serious hard work 2 the writer s  
ultimate purpose is irrelevant because a good songwriter can do all of these things and even do them all at the same time the  
writer should be able to write a song in any genre for any purpose 3 songwriting is the process of creating songs and it is hard  
to define where idea and title are not virtually synonymous for example if you add the following sentence to the above  
example i want to write a song about someone who goes through acute mood swings you have an idea even though the song  
may not end up being called problem child 4 there is a technique used by all great songwriters and it is not a very difficult one  
to learn it involves free associating on a legal pad and then pareting down lists of cross referenced words or phrases that can  
be used in lyric lines
