by the standards that historians usually use to judge presidents john quincy adams was a failure although better qualified for the office than any american of his generation he served for only one term and was unable to accomplish any of the most cherished goals set forth so boldly at the beginning of his presidency his election to the presidency in 1824 was itself fraught with controversy and charges of political corruption and he was soundly defeated in his bid for re election by andrew jackson to many contemporaries and even some historians adams has appeared completely out of touch with the democratic revolution that was transforming american life at the time he seemed a relic of a discredited eighteenth century political world yet john quincy adams has not shared the fate of other presidential failures who have faded almost entirely

from the national memory

biography of the remarkable man who stands as an embodiment of those qualities of heart and mind which preserved and shaped the United States of America

who were the best and worst U.S. presidents in the past when historians and scholars have rated the presidents their evaluations often have been based on individual charisma activism and service during periods of crisis taking a distinctly new approach in recarving Rushmore. Ivan Eland profiles each U.S. president from Washington to Obama on the merits of his policies and whether those strategies contributed to peace prosperity and liberty. This ranking system is based on how effective each president was in fulfilling his oath to uphold the Constitution contrary to the preferences of modern conservatives and liberals this oath was intended to limit the role of the federal government. Readers will be intrigued to discover why of the four men given exalted representations on Mount Rushmore only Washington deserves the honor they will learn why Teddy Roosevelt has been overrated why Jefferson hypocritically violated his lofty rhetoric of liberty and why Lincoln provoked a civil war that achieved far less than believed. Readers will uncover why some presidents are rated much higher than the conventional wisdom for example Warren Harding and some rank much lower for example Harry Truman. As for more modern U.S. chief executives Republicans will be astounded to learn that Nixon was the last liberal president and that Reagan wasn't all that conservative Democrats will be amazed to learn that Clinton was in some respects more conservative than George W. Bush and why both Obama and Bush are ranked as bad. Readers will learn why the author goes against the grain and anoints Eisenhower and Carter as the two best modern presidents.

This innovative encyclopedia explores the life and times of America's forty-five presidents from the first administration to that of Donald Trump. Forty-five men have served as president of the United States since George Washington swore the oath of office in 1789 in New York City. Some have proved exceptional leaders and others have not. Some have faced serious crises both foreign and domestic. Franklin Roosevelt was elected to four terms leading the country through a major economic depression and a world war while one held the office for only a single month. Each however played a key role in the evolution of United States history. Each of their histories therefore remains a critical civics lesson to consider. This four-volume encyclopedia provides an expansive analysis of the life and times of each United States president in chronological order from George Washington to Donald Trump. Each chapter includes a timeline a biographical sketch a historical overview and an analytical essay concerning the president and his presidency. Each also includes a substantial selection of related primary documents presenting important presidential speeches and correspondence a suggested reading list for further study of each president rounds out each entry.

as of 2012 only 43 men have held the office of the president of the united states some have been sanctified and some reviled this historical work addresses the careers of the first ten presidents men who made vital contributions not only to the office of the presidency but to the course of the fledgling nation from washington through tyler every term is recounted in detail and each presidential profile provides as many as a hundred quotations with full source notes by the president his friends family historians and others each profile ends with an extensive bibliography of books about the president his principles and policies and also provides suggestion for further reading rigorously nonpartisan in approach this detail rich text describes the early years of what may well be one of the most demanding jobs in the world

the america of the early republic was built on an experiment a hopeful prophecy that would only be fulfilled if an enlightened people could find its way through its past and into a future americans recognized that its promises would only be fully redeemed at a future date in revolutionary prophecies renowned historians robert m s mcdonald and peter s onuf summon a diverse cast of characters from the founding generation all of whom in different ways reveal how their understanding of the past and present shaped hopes ambitions and anxieties for or about the future the essays in this wide ranging volume explore the historical consciousness of americans caught up in the revolution and its aftermath by focusing on how various individuals and groups envisioned their future the contributors show that revolutionary americans knew they were making choices that would redirect the course of human events looking at prominent leaders such as washington adams franklin hamilton madison and monroe as well as more common people from backcountry rebels and american indians to printer isaiah thomas the authors illuminate the range and complexity of the ways in which men and women of the founding generation imagined their future and made our history
