relevance is one of the most widely used buzz words in academic and other socio political discourses and institutions today which constantly ask us to be relevant to date there is no profound scholarly conceptualization of the term however which is widely accepted in the humanities relevance and narrative research closes this gap by initiating a discussion which turns the vaguely defined evaluative tool relevance into an object of study the contributors to this volume do so by firmly situating questions of relevance in the context of narrative theory briefly put they ask either what can relevance do for narrative research or what can narrative research do for better understanding relevance or both the basic assumption is that relevance is a relational term further assuming that most if not all relations which human beings encounter within their cultures are narratively constructed the contributors to this volume suggest that reflections on narrative and narrative research are fundamental to any endeavor to conceptualize notions of relevance

This ambitious undertaking is designed to acquaint students, teachers, and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature. Within each of 24 major sections, Marcuse lists and annotates bibliographies, guides, reviews of research, encyclopedias, dictionaries, journals, and reference histories. The annotations and various indexes are models of clarity and usefulness, and cross references are liberally supplied where appropriate. Although cost-conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L. Harner's *Literary Research Guide*, *Modern Language Assn. of America* 1989, larger academic libraries will want Marcuse's volume. Jack Bales, *Mary Washington Coll. Lib.*, Fredericksburg, VA; *Library Journal*.

These sixteen stories, ten of which have not been previously published, represent the work of one of the most influential Native American writers of the twentieth century, held by many to be the most important Native Americans to write fiction before N.
