a biblical clear cogent accessible comprehensive and practical summary of christian belief  
by one of the most important and original american theologians of the last hundred years

this book is an autobiographical memoir it tells the story of how god prepared me for the work of theology during childhood and during my schooling at princeton westminster and

yale it focuses on those events that shaped my theological convictions and led me to develop my distinctive emphases in theology apologetics and philosophy it seeks to honor god s providence in leading me from one point to another in my life as a son husband father theologian apologist and churchman my goal in the book is to show how one s theological convictions are products not only of logic and reasoning but also of the events of one s life and the people one interacts with

because god created all things with coherent unity everything can be understood from the perspective of everything else we experience the world in the context of our own bodies but every day we broaden our understanding through the perspectives of others meanwhile our omniscient god is also omniperspectival through his revelation he allows us a glimpse of his own divine perspective what does this mean for us one valuable dimension of this reality is that theological issues can also be helpfully viewed from multiple perspectives without compromising their unity and truth in this accessible introduction to his bible study and theological method john frame teaches us to approach doctrine with situational normative and existential perspectives modeled on the trinity

frame sheds needed light on the message and method of genuinely christian apologetics giving special attention to application of the truth he insightfully examines apologetics as proof defense and offense frame clarifies the relationships of reason proofs and evidences to faith biblical authority and the lordship of christ he offers a fresh look at probability arguments and gives special attention to the problem of evil

can we know anything about god apart from the bible many protestant christians are suspicious of natural theology which claims that we can learn about god through revelation outside the bible how can we know anything about god apart from scripture in nature s case for god distinguished theologian john frame argues that christians are not forbidden from seeking to learn about god from his creation in fact the bible itself shows this to be possible

in nine short and lucid chapters that include questions for discussion frame shows us what we can learn about god and how we relate to him from the world outside the bible if the heavens really do declare the glory of god as the psalmist claims it makes a huge difference for how we understand god and how we introduce him to those who don't yet know christ

everyone is a philosopher and how we live reveals what we most deeply believe if you and god were asked the same question would you both respond in the same way are christians right to believe what we do in we are all philosophers john m frame takes seven major questions of philosophy and compares the bible's answers with common philosophical ones what is everything made of do i have free will can i know the world does god exist how shall i live what are my rights how can i be saved we are all philosophers carries all the marks of john frame's books he appeals to scripture frequently and carefully he writes elegantly and simply a byproduct of having mastered the complicated philosophical topics he surveys

the third volume of frame's theology of lordship series this book focuses on biblical ethics in an age of ethical relativism and suspicion of authority how can we know what is good virtuous or just frame surveys non christian ethical traditions before setting forth a solidly christian ethical method by clarifying biblical norms life situations and personal dimensions he presents a model for decision making that honors god in all aspects of life discussions range from natural law and conflict of duties to detailed explorations of the ten commandments in connection with questions surrounding worship the sabbath church and state respect for life and truth sexuality and the relation of christ to culture

the christian frame of mind reason order and openness in theology and natural science is an exhilarating exploration by one of this century s premier theologians of the relationship between science and theology this collection of essays which focuses on themes central to thomas f torrance s lifelong work of integrating judea christian theology and natural science illuminates the distinctive contribution of the christian frame of mind to human life and thought particularly in the rise of modern science arguing to close the gap between theological and natural science erroneously opened by the narrow minded rationalism of the enlightenment dr torrance builds upon the work of scientists such as james clerk maxwell albert einstein and michael polanyi in promoting dialogue between the two disciplines the resultant conversation is a brilliant and stirring analysis of common ground in scientific and theological inquiry torrance discards a dualist separation for a unitary understanding of reality in which the invisible guides the interpretation of the visible as scientist and theologian alike adopt self critical openness and the auditive mode of inquiry in response to the pressing questions of their task dr torrance urges this unitary understanding of the intelligibility of the universe as a shared goal of science and theology his vision of a foundational convergence between them where the boundary points of contingent reality find their reference in the transcendent uncreated reality of the word of god is breathtaking in beauty and scope the introduction by dr w jim neidhardt physics professor at the new jersey institute of technology provides a lucid summary of key themes in torrance s lifelong integrative work

the essays which make up this volume arise out of the author s ongoing engagement with the tension between christian theology and the general frame of thought that has dominated european culture for several hundred years the early christian church set about not only to communicate the gospel to the greco roman world but also to transform the prevailing mode of thought and culture so that the gospel could take deep root and develop within it therefore

in every age says thomas f torrance Òthe christian faith must be brought to bear transformingly upon the whole frame of human culture science and philosophy Ó
