this work discusses questions on political participation representation and legitimacy in the european union national parliaments three major empirical questions structure the book what affects women s presence in parliaments does the number of women in parliament have an effect and are women in parliament representing women empirical evidences show that institutional reforms need a minimal environment in terms of socio economic development so as to prove effective as opposed to the critical mass theory claiming that a few representatives cannot have an impact on the political outcomes here the empirical evidences suggest that smaller groups can also influence the different components of the legislative process the last part turns to the fundamental question of whether a parliament that is descriptively representative i e in which the parliamentarians share certain characteristics with the voters also is a substantively descriptive parliament i e in which the parliamentarians mirror the voters opinions evidence suggests that the electoral system s level of proportionality influences the extent to which assemblies socially and ideologically mirror their population the book ends by advancing new hypotheses and setting up guidelines for future research

introduces a range of data analysis problems encountered in drug development and illustrates them using case studies from actual pre clinical experiments and clinical studies includes a discussion of methodological issues practical advice from subject matter experts and review of relevant regulatory guidelines

this new edition of the book will be produced in two versions the textbook will include a cd rom with two videotaped lectures by the authors this book translates biostatistics in the

health sciences literature with clarity and irreverence students and practitioners alike applaud biostatistics as the practical guide that exposes them to every statistical test they may encounter with careful conceptual explanations and a minimum of algebra what s new the new bare essentials reflects recent advances in statistics as well as time honored methods for example hierarchical linear modeling which first appeared in psychology journals and only now is described in medical literature also new is a chapter on testing for equivalence and non inferiority as well as a chapter with information to get started with the computer statistics program spss free of calculations and jargon bare essentials speaks so plainly that you won t need a technical dictionary no math all concepts the objective is to enable you to determine if the research results are applicable to your own patients throughout the guide you ll find highlights of areas in which researchers misuse or misinterpret statistical tests we have labeled these c r a p detectors convoluted reasoning and anti intellectual pomposity which help you to identify faulty methodology and misuse of statistics

covers theoretical psychometric and practical issues related to the assessment of competencies in educational and vocational settings this book is suitable for researchers interested in theoretical and psychometric background of assessment and for readers interested in practical aspects of computer based assessment and evaluation

this is the first report of a two part project that estimates the determinants of individual enlistment decisions using the 1992 and 1994 wave of the national educational longitudinal study nels

this volume demonstrates how party insiders from america s founding to the present day have sought to control presidential nominations as a meanns of getting what they want from government contrary to the common view that the reforms of the 1970s wrested power away from parties the authors contend that the most consequential contests remain candidates fights for prominent endorsements and the support of various interest groups activists and party leaders these invisible primaries the authors show produce front runners and profoundly influence final election outcomes long before most voters even begin to pay attention from back cover
