the archaeologist philologist and linguistics theoretician nikolai marr 1865 1934 has attracted increasing scholarly attention as a pivotal figure of late tsarist and early soviet cultural politics and as an early anticolonial theorist he remains however an elusive thinker who is much written about but seldom read this volume offers a representative selection of marr s writing from several stages of his life translated here for the first time into english the selection of texts

allows the reader to trace the key evolving and interconnected preoccupations that animate marr s vast oeuvre his anti nationalist valorization of the cultural and linguistic hybridity of the caucasus his denunciation of the imperialist complicity of western european comparative linguistics his anti darwinian emphasis on mixture and convergence in place of filial descent within the history of languages and his unorthodox theories of linguistic origins in gesture rather than speech key marrist terms such as japhetidology or the rejection of the prevalent theory of an indo european language family are clarified the volume contains original essays that contextualize marr s work within the history of linguistics showing the indebtedness and applicability of his ideas to traditions that are frequently held to be unrelated to one another russian proto structuralism french deconstruction and indian subaltern thought this book was originally published as a special issue of interventions international journal of postcolonial studies

reintroducing materials for sustainable design provides instrumental theory and practical guidance to bring materials back into a central role in the design process and education to create designs that are sustainable and respond to current environmental economic and cultural concerns practitioners and educators require a clear framework for materials use in design and product manufacturing while much has been written about sustainable design over the last two decades outlining systems of sustainability and product criteria to design for material circularity requires a detailed understanding of the physical matter that constitutes products designers must not just know of materials but know how to manipulate them and work with them creatively this book responds to the gap by offering a way to acquire the material knowledge necessary to design physical objects for sustainability it reinforces the key role and responsibility of designers and encourages designers to take back control over the ideation and manufacturing process finally it discusses the educational practice involved and the potential implications for design education following implementation addressing didactics facilities and expertise this guide is a must read for designers educators and researchers engaged in sustainable product design and materials
