introduction when indian philosopher vatsyayana was writing the text that would be known as the kama sutra a few thousand years ago there s no way he could have anticipated the impact his work would have on the world nowadays the words kama sutra are a synonym for sex a number of outlets have used kama sutra to signify

crazy ways to do it from the very earnest cosmo kama sutra to the highly unauthorized parody star wars kama sutra go to kamasutra.com and you'll find a company specializing in luxury romance and intimacy products like edible body paints and dusts. If it seems strange that a 2,000-year-old text continues to carry such impact on our erotic imaginations, it gets even stranger when you realize that most of the kama sutra isn't actually about sex. Unlike the many hot and heavy sex manuals that bear its name, the original kama sutra is a philosophical text offering musings on how to have a rewarding life and fruitful relationships to the extent that it's a sex manual. It's mostly because it doesn't shy away from the notion that sex and interesting sex positions is a healthy and normal part of life. Of course, given that this is a 2,000-year-old text, it's very heteronormative while queer sex and non-normative gender identities do make appearances in the text. The general assumption is that the reader's primary sexual relationship will be a heterosexual one.
