social philosophy can be considered the study of what unifies mankind and the study of values and ideals and what their meaning and worth is to human existence originally published in 1918 mackenzie's study provides a basic outline of what he believes is the origin of social philosophy whilst placing a focus on social order dividing his work into the foundations of social order national order and world order this title will be of interest to students of philosophy sociology and anthropology

this study focuses attention on an aspect of thought about man and society which most scientists and philosophers happen to miss i.e. the effect of their thought in shaping the human and social reality itself contents the concept of society the two predicaments reflection on action perspectives of freedom the search for a measuring rod society reality or utopia condition good

can societies fall ill can institutions die or social practices degenerate must social norms be embodied to what extent is social action habitual is social life part of nature or does it

transcend it this book explores the meaning and many facets of naturalism in social philosophy it investigates the consequences of concepts such as second nature and forms of life for social philosophy it analyses the ways in which social action gender work and morality are embodied it surveys the conceptions of nature at play in social criticism it provides students and experts of social philosophy with both an overview and critical analyses of the many facets of naturalism in social philosophy from hegel to contemporary critical theory contributors louis carré fabian freyenhagen martin hartmann axel honneth thomas khurana steven levine sabina lovibond arvi särkelä barbara stiegler mariana teixeira italo testa

the programmes of political parties and movements are attempts to formulate policies or guidelines in relation to social change social philosophy concerns the fundamental issues on which those programmes divide this introductory work gives an account of several highly influential systems of social philosophy systems which serve as the landmarks by reference to which modern discussions still orientate themselves the description of various stages in the history of social philosophy is set within an account of its changing social environment from feudalism and the philosophy of aquinas to the rise of the working class and socialism the book confines itself to the western tradition and one could say that it charts the rise and fall of the free market as the central institution and the key to the understanding of society

on the indian philosopher aurobindo ghose 1872 1950

social philosophy explores the fundamental principles that underpin society and human interactions it delves into questions about justice equality freedom and the nature of human relationships within communities at its core social philosophy seeks to understand how individuals relate to one another how societies are structured and how they should ideally function one key aspect of social philosophy is the examination of the role of institutions such as government education and religion in shaping social order and individual behavior philosophers in this field ponder on issues like distributive justice rights and the balance between individual liberty and collective welfare moreover social philosophy often intersects with ethics political theory and economics as it grapples with ethical dilemmas inherent in social structures and policies it explores the moral obligations individuals have towards one another and society as a whole this book unfolds the innovative aspects of social philosophy which will be crucial for the holistic understanding of the subject matter this book discusses the fundamentals as well as modern approaches to the study of social philosophy those with an interest in philosophy and sociology would find this book helpful

lambert zuidervaart examines what is living and what is dead in the social philosophy of theodor w adorno the most important philosopher and social critic in germany after world war ii when he died in 1969 adorno s successors abandoned his critical utopian passions habermas in particular rejected or ignored adorno s central insights on the negative effects of capitalism and new technologies upon nature and human life zuidervaart reclaims adorno s insights from habermasian neglect while taking up legitimate habermasian criticisms he also addresses the prospects for radical and democratic transformations of an increasingly globalized world the book proposes a provocative social philosophy after adorno

about morals and social psychology

semyon ludvigovich frank 1877 1950 wrote major works on epistemology ontology

philosophy of religion and social philosophy as a youthful marxist he was arrested and banned from major russian cities for his radical activities becoming dissatisfied with marxism he soon turned to idealism and then to religious philosophy professor of philosophy at moscow university until 1922 when he was expelled to the west frank worked in exile until his death in london in 1950 the spiritual foundations of society is frank s attempt to examine society as a type of spiritual being to develop an ontology of society two ideas are central to his vision of future social thought the first of these sobornost from the russian sobirat to gather is the living inner organic unity of all human societies its primary form is the family unit opposed to sobornost is obshchestvnnost obshchyi general or common the mechanical aspect of society in which the separate parts act to mutually limit and constrain one another the second idea is the principle of service as the most general expression of the ontological essence of man and therefore the highest normative principle of social life according to frank all human right are grounded in one inntre right the right to fulfill obligations the opportunity to serve thus frank reconciles the principles of solidarity and individual freedom through common subordination to the principle of service though writing in the late twenties frank addresses fundamental concepts of the ground of social life applicable to all periods of history his introduction of concepts from the russian tradition enables us to see problems in a new light and his approach focused on concepts of community and service challenges the now dominant materialistic and naturalistic theories of the nature of social life

this accessible introductory text discusses how people in a pluralistic society such as ours can accept a common social ethic a publicly justified morality it presents analyses of the basic concepts including justifications of liberty harm to others private property rights distributive justice environmental harms help to others and offensive behaviour gaus acquaints the reader with the major figures in social philosophy john stuart mill jeremy bentham thomas hobbes john locke david hume john rawls david gauthier and joel feinberg as well as recent communitarian philosophers the basic technical aspects of social philosophy are also introduced game theory social choice theory the ideas rational action rational bargaining and public goods throughout helpful short examples and stories are used to illustrate the material
