the work of michèle le dœuff creatively disrupts established notions of what philosophy might be far from being a discipline about the leader and the disciple a hierarchy of knowledge and paternalism le dœuff proposes a philosophy of dialogue and friendship the conversations in this book explore how this philosophy can be enacted and explored and show how openness and generosity can be the starting point of truly rigorous thinking introduced and curated by the late philosopher pamela sue anderson in dialogue with michèle le dœuff explores themes like contemporary feminism joy in philosophy memory the significance of friendship to thinking and a key le dœuffian concept the imaginary le dœuff s interlocutors including penelope deutscher elizabeth fallaize and meenda dhanda are some of the most significant thinkers in the fields of feminism and continental thought and provide insights and ways into considering philosophy as a profoundly dialogical exercise

the mahābhārata has been explored extensively as a work of mythology epic poetry and religious literature but the text s philosophical dimensions have largely been under appreciated by western scholars this book explores the philosophical implications of the mahābhārata by paying attention to the centrality of dialogue both as the text s prevailing literary expression and its organising structure focusing on five sets of dialogues about controversial moral problems in the central story this book shows that philosophical deliberation is an integral part of the narrative black argues that by paying attention to how characters make arguments and how dialogues unfold we can better appreciate the mahābhārata s philosophical significance and its potential contribution to debates in comparative philosophy today this is a fresh perspective on the mahābhārata that will be of great interest to any scholar working in religious studies indian south asian religions comparative philosophy and world literature

dialogue and learning in mathematics education is concerned with communication in mathematics class rooms in a series of empirical studies of project work we follow students inquiry cooperation as well as students obstructions to inquiry cooperation both are considered important for a theory of learning mathematics special attention is paid to the notions of dialogue and critique a central idea is that dialogue supports critical learning of mathematics the link between dialogue and critique is developed further by including the notions of intention and reflection thus a theory of learning mathematics is developed which is resonant with critical mathematics education
