the keeper of the isis light is the first book in monica hughes acclaimed trilogy and it is the story of olwen pendennis the keeper of the isis light she and her companion guardian have lived alone on the remote planet isis since the death of her parents now colonists from an overcrowded and polluted earth have landed and are settling in the valleys olwen fears these new inhabitants may ruin her world forever and it seems she may be right years later in hughes sequel the guardian of isis the planet remains pristine and remote even after the arrival of settlers from earth over time the settlers have abandoned the technological knowledge of their ancestors and replaced it with myth but one young man seeks the truth and he soon gets the chance to find it the final chapter in the trilogy the isis pedlar brings the devious michael joseph flynn and his daughter moira to isis michael s magic firestone his strangely delicious ambrosia and his mysterious forever machine are beguiling to the humble members of the isis community only moira can expose this smooth talking pedlar for the charlatan that he is but will she be able to do it in time to save the simple agricultural community

it was her tenth birthday on isis by earth years she would be sixteen but olwen pendennis had never been to earth she had been born on isis and since her parents death she had lived there alone manning the isis light a lighthouse in space designed to aid ships and to bring settlers from earth and

now on the day of her tenth year the settlers are coming at last olwen is ready to welcome them but are they ready for her she was once human like them but the harsh climate of the alien planet has changed her transformed her into something else something the settlers could never be prepared for

this newly designed paperback edition brings together the stories of an acclaimed trilogy first published between 1980 and 1982 by an internationally renowned author of fantasy and science fiction the keeper of the isis light is the first book in monica hughes acclaimed trilogy and it is the story of olwen pendennis the keeper of the isis light she and her companion guardian have lived alone on the remote planet isis since the death of her parents now colonists from an overcrowded and polluted earth have landed and are settling in the valleys olwen fears these new inhabitants may ruin her world forever and it seems she may be right years later in hughes sequel the guardian of isis the planet remains pristine and remote even after the arrival of settlers from earth over time the settlers have abandoned the technological knowledge of their ancestors and replaced it with myth but one young man seeks the truth and he soon gets the chance to find it the final chapter in the trilogy the isis pedlar brings the devious michael joseph flynn and his daughter moira to isis michael s magic firestone his strangely delicious ambrosia and his mysterious forever machine are beguiling to the humble members of the isis community only moira can expose this smooth talking pedlar for the charlatan that he is but will she be able to do it in time to save the simple agricultural community this trilogy is a testament to hughes enormous talent for writing thought provoking speculative fiction

since olwen has spent her entire life on an uninhabited planet adapting to its environment when a spaceship from earth appears olwen although a human being finds the new arrivals repelled by her appearance

since olwen has spent her entire life on an uninhabited planet adapting to its environment when a spaceship from earth appears olwen although a human being finds the earthmen repelled by her appearance

this book offers a multifaceted approach to the world of young adults everything from ray schrock s use of walter dean myers sports stories to discuss race relations and cultural politics to joyce litton s analysis of the highly popular sisterhood of the traveling pants quartet the cover illustration is done by joel rudinger based on his experiences with the inuit where he learned many of their legends and myths resulting in his own excellent work on sedna the creation goddess a story filled with deep tragedy mystery and the world of the spirits this mythic world slides into the discussion of harry eiss one that focuses on the isis trilogy best known of monica hughes many works who writes science fiction and fantasy in particular are valid carriers of myth for the 20th century and most especially for young people margaret best and susann devries also give us literature that uses science they begin the science fair project is the central metaphor and the reality in paul zindel s the effect of gamma rays on man in the moon marigolds 1970 christopher paul curtis s bucking the sarge 2004 and joyce

maynard s the cloud chamber 2005 after providing an overview science fiction sally sugarman offers a study of the entire genre for this study two hundred and thirty nine high school students from two schools in vermont and massachusetts were surveyed alethea k helbig provides an overview of her important activities promoting literature for the young she was a seminal scholar and educator when colleges and universities were just beginning to take the study of such literature seriously when english departments were initiating serious undergraduate and graduate classes in what previously had been seen as inferior literature her life itself provides us with an entertaining and historically valuable autobiographical account of a person at the center of the change that has taken and continues to take place jerry loving expands the horizons of the entire collection of essays providing a firsthand account of how the young are educated in china including a detailed history it begins i have been traveling to mainland china at least 4 to 6 times a year as a teacher or education evaluator since 2002 as the visits and years passed i watched the education system of china slowly improve to the level my schools were like when i went to school in the 50 s and 60 s

the book focuses on individuals writing in the 90s but also includes 12 classic authors e g mark twain louisa may alcott j r r tolkien who are still widely read by teens it also covers some authors known primarily for adult literature e g stephen king and some who write mainly for middle readers but are also popular among young adults e g betsy byars an affordable alternative to multivolume publications this book makes a great collection development tool and resource for author studies it will also help readers find other books by and about their favorite writers

at the close of the nineteenth century american youths developed a growing interest in electricity and its applications machines and gadgetry when authors and publishers recognized the extent of this interest in technology they sought to create reading materials that would meet this market need the result was science fiction written especially for young adults while critics tended to neglect young adult science fiction for decades they gradually came to recognize its practical and cultural value science fiction inspired many young adults to study science and engineering and helped foster technological innovation at the same time these works also explored cultural and social concerns more commonly associated with serious literature nor was young adult science fiction a peculiarly american phenomenon authors in other countries likewise wrote science fiction for young adult readers this book examines young adult science fiction in the u s and several other countries and explores issues central to the genre the first part of the book treats the larger contexts of young adult science fiction and includes chapters on its history and development included are discussions of science fiction for young adults in the u s and in canada great britain germany and australia these chapters are written by expert contributors and chart the history of young adult science fiction from the nineteenth century to the present the second section of the book considers topics of special interest to young adult science fiction some of the chapters look at particular forms and expressions of science fiction such as films and comic books others treat particular topics such as the portrayal of women in robert heinlein s works and representations of war in young adult science fiction yet another chapter studies the

young adult science fiction novel as a coming of age story and thus helps distinguish the genre from science fiction written for adult readers all chapters reflect current research and the volume concludes with extensive bibliographies

literary conceptualizations of growth explores those processes through which maturation is represented in adolescent literature by examining how concepts of growth manifest themselves in adolescent literature and by interrogating how the concept of growth structures scholars ability to think about adolescence cognitive literary theory provides the theoretical framework as do the related fields of cognitive linguistics and experiential philosophy historical constructions of the concept of growth are also examined within the context of the history of ideas cross cultural literature from the traditional bildungsroman to the contemporary young adult novel serve as examples literary conceptualizations of growth ultimately asserts that human cognitive structures are responsible for the pervasiveness of growth as both a metaphor and a narrative pattern in adolescent literature
