as genesis chapter twelve opens the narrative picks up on the story of abram the tenth generation of shem s progeny god directed abram to move to a land that the lord would show to him slowly faithfully generation after generation the lord directs guides and corrects abram and his descendants through the annals of his redemption fulfilling his promise of redemption in the birth of jesus who directly descended from abraham through whom all of the nations would be blest conceived by god s spirit jesus was also god s son the lamb of god sacrificed for the sins of the world through whom

the creating redeeming lord of all creation would bring his wayward people back home to him where they will praise his glorious name for all eternity the book of genesis is not only the first book of the bible detailing the beginnings of creation and life as we know it but also serves as the over arching and pervasive sacred reference for the true understanding of the entire bible as intended by the author god the spirit of truth

derived algebraic geometry is a far reaching generalization of algebraic geometry it has found numerous applications in various parts of mathematics most prominently in representation theory this volume develops the theory of ind coherent sheaves in the context of derived algebraic geometry ind coherent sheaves are a renormalization of quasi coherent sheaves and provide a natural setting for grothendieck serre duality as well as geometric incarnations of numerous categories of interest in representation theory this volume consists of three parts and an appendix the first part is a survey of homotopical algebra in the setting of categories and the basics of derived algebraic geometry the second part builds the theory of ind coherent sheaves as a functor out of the category of correspondences and studies the relationship between ind coherent and quasi coherent sheaves the third part sets up the general machinery of the category of correspondences needed for the second part the category of correspondences via the theory developed in the third part provides a general framework for grothendieck s six functor formalism the appendix provides the necessary background on categories needed for the third part
