these essays examine robinson s use of alternate history and politics both in his many novels and in his short stories this collection drawn from writers on four continents includes five new essays and broadens the interpretive debate surrounding robinson s science fiction and argues for consideration of the author as an intellectual figure of the first rank provided by publisher

kim stanley robinson has been an ongoing force in the science fiction genre for over twenty years with his novels year s of rice and salt forty signs of rain crossing over to the mainstream and routinely appearing on the new york times best sellers list during the 80s and early nineties his short fiction continued to push the boundaries of science fiction defining the science focused side of the science fiction genre award winning editor jonathan strahan worked with kim stanley robinson to select the stories that make up this landmark volume in addition to these reprints the best of kim stanley robinson features a brand new short story the timpanist of the berlin philharmonic 1942

from the new york times bestselling author fantasy adventures about the world of extreme mountain climbing featuring two american expats living in nepal living in the city of kathmandu in the kingdom of nepal are dozens of american and british expatriates who are in love with the himalayas george fergusson is one of them he works as a trek guide for take you higher ltd leading groups of tourists into the back country and occasionally assisting on serious climbs george fred's fredericks is another

a tall easy going american who converted to buddhism while in college he visited nepal one year and never went home the adventures started when george and freds got together over the capture of a yeti an abominable snowman by a scientific expedition the thought of such a wild and mysterious creature in captivity in prison was too much for them to bear and in freeing the yeti a great partnership was born george and freds will go on to greater heights as they explore the mysteries of nepal from shangri la to kathmandu s governmental bureaucracy an enjoyable collection publishers weekly robinson injects a generous dose of the absurd into his heroes encounters with reincarnated monks vast underground tunnels hidden kingdoms and runaway elephants these fast paced sf action adventure stories are recommended library journal

award winning epics like the mars trilogy and groundbreaking alternative histories like the days of rice and salt have brought kim stanley robinson to the forefront of contemporary science fiction mixing subject matter from a dizzying number of fields with his own complex ecological and philosophical concerns robinson explores how humanity might pursue utopian social action as a strategy for its own survival robert markley examines the works of an author engaged with the fundamental question of how we as individuals as a civilization and as a species might go forward by building stories on huge time scales robinson lays out the scientific and human processes that fuel humanity s struggle toward a more just and environmentally stable world or system of worlds his works invite readers to contemplate how to achieve and live in these numerous possible futures they also challenge us to see that sf s literary cultural and philosophical significance have made it the preeminent literary genre for examining where we stand today in human and planetary history

winner of the nebula award for best novel discover the novel that launched one of science fiction s most beloved acclaimed and awarded trilogies kim stanley robinson s masterly near future chronicle of interplanetary colonization a staggering book the best novel on the colonization of mars that has ever been written arthur c clarke for centuries the barren desolate landscape of the red planet has beckoned to humankind now a group of one hundred colonists begins a mission whose ultimate goal is to transform mars into a more earthlike planet they will place giant satellite mirrors in martian orbit to reflect light onto its surface black dust sprinkled on the polar caps will capture warmth and melt the ice and massive tunnels drilled into the mantle will create stupendous vents of hot gases but despite these ambitious goals there are some who would fight to the death to prevent mars from ever being changed

kim stanley robinson s mars trilogy is one of science fiction s most honored stories with red mars winning the distinguished nebula award and both green mars and blue mars honored with the hugo now robinson returns to the realm he has made his own the planet mars in a brilliantly imagined drama with a searing poetic vision from a training mission in antarctica to blistering sandstorms sweeping through labyrinths of barren canyons the interwoven stories of the martians set in motion a sprawling cast of characters upon the surface of mars as the planet is transformed from an unexplored and forbidding terrain to a troubled image of a re created earth we meet the first hundred explorers men and women who are bound together by earth s tenuous toehold on mars presenting unforgettable stories of hope and disappointment of fierce physical and psychological struggles the martians is an epic chronicle of a planet that represents one of humanity s most glorious possibilities praise for the martians a uniquely rewarding experience of state of the art science fiction the new york times book review no one familiar with robinson s trilogy can read through these final

vaedictory stories without feeling moved the washington post the stories are beautifully written the characters are well developed and the author s passion for ecology manifests itself on every page publishers weekly starred review

an early novel from science fiction legend kim stanley robinson the memory of whiteness is now available for the first time in decades in 3229 a d human civilization is scattered among the planets moons and asteroids of the solar system billions of lives depend on the technology derived from the breakthroughs of the greatest physicist of the age arthur holywelkin but in the last years of his life holywelkin devoted himself to building a strange beautiful and complex musical instrument that he called the orchestra johannes wright has earned the honor of becoming the ninth master of holywelkin s orchestra follow him on his grand tour of the solar system as he journeys down the gravity well toward the sun impelled by a destiny he can scarcely understand and is pursued by mysterious foes who will tell him anything except the reason for their enmity at the publisher s request this title is being sold without digital rights management software drm applied

one of barack obama s favorite books of the year the best science fiction nonfiction novel i ve ever read jonathan lethem if i could get policymakers and citizens everywhere to read just one book this year it would be kim stanley robinson s the ministry for the future ezra klein vox the ministry for the future is a masterpiece of the imagination using fictional eyewitness accounts to tell the story of how climate change will affect us all its setting is not a desolate postapocalyptic world but a future that is almost upon us chosen by barack obama as one of his favorite books of the year this extraordinary novel from visionary science fiction writer kim stanley robinson will change the way you think about the climate crisis one hopes that this book is read widely that robinson s audience already large grows by an order of magnitude because the point of his books is to fire the imagination new york review of books if there s any book that hit me hard this year it was kim stanley robinson s the ministry for the future a sweeping epic about climate change and humanity s efforts to try and turn the tide before it s too late polygon best of the year masterly new yorker the ministry for the future struck like a mallet hitting a gong reverberating through the year it s terrifying unrelenting but ultimately hopeful robinson is the sf writer of my lifetime and this stands as some of his best work it s my book of the year locus science fiction visionary kim stanley robinson makes the case for quantitative easing our way out of planetary doom bloomberg green

a major new novel from one of science fiction s most powerful voices aurora tells the incredible story of our first voyage beyond the solar system brilliantly imagined and beautifully told it is the work of a writer at the height of his powers our voyage from earth began generations ago now we approach our new home aurora

red moon is a magnificent novel of space exploration and political revolution from new york times bestselling author kim stanley robinson it is thirty years from now and we have colonized the moon american fred fredericks is making his first trip his purpose to install a communications system for china s lunar science foundation but hours after his arrival he witnesses a murder and is forced into hiding it is also the first visit for celebrity travel reporter ta shu he has contacts and influence but he too will find that the moon can be a perilous place for any traveler finally there is chan qi she is the daughter of the minister of finance and without doubt a person of interest to those in power she is on the moon for reasons of her own but when she attempts to return to china in secret the events that

unfold will change everything on the moon and on earth

set in our nation's capital here is a chillingly realistic tale of people caught in the collision of science technology and the consequences of global warming when the storm got bad Frank Vanderwal was in his office at the National Science Foundation when it was over large chunks of San Diego had eroded into the sea and D.C. was underwater everything Frank and his colleagues feared had culminated in this disaster and now the world was looking to them to fix it but even as D.C. bails itself out a more extreme climate change looms the melting polar ice caps are shutting down the warm Gulf Stream waters meaning ice age conditions could return and the last time that happened eleven thousand years ago it took just three years to start

New York Times bestselling author Kim Stanley Robinson returns with a bold and brilliant vision of New York City in the next century as the sea levels rose every street became a canal every skyscraper an island for the residents of one apartment building in Madison Square however New York in the year 2140 is far from a drowned city there is the market trader who finds opportunities where others find trouble there is the detective whose work will never disappear along with the lawyers of course there is the internet star beloved by millions for her airship adventures and the building's manager quietly respected for his attention to detail then there are two boys who don't live there but have no other home and who are more important to its future than anyone might imagine lastly there are the coders temporary residents on the roof whose disappearance triggers a sequence of events that threatens the existence of all and even the long hidden foundations on which the city rests

established in 2025 the purpose of the new organisation was simple to advocate for the world's future generations and to protect all living creatures present and future it soon became known as the Ministry for the Future and this is its story from legendary science fiction author Kim Stanley Robinson comes a vision of climate change unlike any ever imagined told entirely through fictional eye witness accounts the Ministry for the Future is a masterpiece of the imagination the story of how climate change will affect us all over the decades to come its setting is not a desolate post apocalyptic world but a future that is almost upon us and in which we might just overcome the extraordinary challenges we face it is a novel both immediate and impactful desperate and hopeful in equal measure and it is one of the most powerful and original books on climate change ever written also by Kim Stanley Robinson [red moon](#) [new york 2140](#) [2312](#) [aurora](#) [shaman](#)

by the time Phil Chase is elected president the world's climate is far on its way to irreversible change food scarcity housing shortages diminishing medical care and vanishing species are just some of the consequences the erratic winter the Washington D.C. area is experiencing is another grim reminder of a global weather pattern gone haywire bone chilling cold one day balmy weather the next but the president elect remains optimistic and doesn't intend to give up without a fight a maverick in every sense of the word Chase starts organizing the most ambitious plan to save the world from disaster since FDR and assembling a team of top scientists and advisers to implement it for Charlie Quibler this means reentering the political fray full time and giving up full time care of his young son Joe for Frank Vanderwal hampered by a brain injury it means trying to protect the woman he loves from a vengeful ex and a rogue black ops agency not even the president can control a task for which neither Frank's work at the National Science Foundation nor his study of Tibetan Buddhism can prepare him in a world where time is running out as quickly as its natural resources where surveillance is almost total and

freedom nearly nonexistent the forecast for the chase administration looks darker each passing day for as the last and most terrible of natural disasters looms on the horizon it will take a miracle to stop the clock the kind of miracle that only dedicated men and women can bring about

a sublime and radically original exploration of the sierra nevadas the best mountains on earth for hiking and camping from new york times bestselling novelist kim stanley robinson bill mckibben gary snyder kim stanley robinson first ventured into the sierra nevada mountains during the summer of 1973 he returned from that encounter a changed man awed by a landscape that made him feel as if he were simultaneously strolling through an art museum and scrambling on a jungle gym like an energized child he has returned to the mountains throughout his life more than a hundred trips and has gathered a vast store of knowledge about them the high sierra is his lavish celebration of this exceptional place and an exploration of what makes this span of mountains one of the most compelling places on earth over the course of a vivid and dramatic narrative robinson describes the geological forces that shaped the sierras and the history of its exploration going back to the indigenous peoples who made it home and whose traces can still be found today he celebrates the people whose ideas and actions protected the high sierra for future generations he describes uniquely beautiful hikes and the trails to be avoided robinson s own life altering events defining relationships and unforgettable adventures form the narrative s spine and he illuminates the human communion with the wild and with the sublime including the personal growth that only seems to come from time spent outdoors the high sierra is a gorgeous absorbing immersion in a place born out of a desire to understand and share one of the greatest rapture inducing experiences our planet offers packed with maps gear advice more than 100 breathtaking photos and much more it will inspire veteran hikers casual walkers and travel readers to prepare for a magnificent adventure

the landmark trilogy of cutting edge science international politics and the real life ramifications of climate change updated and abridged into a single novel more than a decade ago bestselling author kim stanley robinson began a groundbreaking series of near future eco thrillers forty signs of rain fifty degrees below and sixty days and counting that grew increasingly urgent and vital as global warming continued unchecked now condensed into one volume and updated with the latest research this sweeping trilogy gains new life as green earth a chillingly realistic novel that plunges readers into great floods a modern ice age and the political fight for all our lives the arctic ice pack averaged thirty feet thick in midwinter when it was first measured in the 1950s by the end of the century it was down to fifteen one august the ice broke the next year the breakup started in july the third year it began in may that was last year it s a muggy summer in washington d c as senate environmental staffer charlie quibler and his scientist wife anna work to call attention to the growing crisis of global warming but as they fight to align the extraordinary march of modern technology with the awesome forces of nature fate puts an unusual twist on their efforts one that will pit science against politics in the heart of the coming storm praise for the science in the capital trilogy perhaps it s no coincidence that one of our most visionary hard sci fi writers is also a profoundly good nature writer all the better to tell us what it is we have to lose los angeles times an unforgettable demonstration of what can go wrong when an ecological balance is upset the new york times book review absorbing and convincing nature

a mysterious monument on pluto s north pole holds the key to a forgotten past in this haunting tale of memory and identity from sf master kim stanley robinson tor essentials presents new editions of

science fiction and fantasy titles of proven merit and lasting value each volume introduced by an appropriate literary figure decades before his massively successful the ministry for the future 2020 kim stanley robinson wrote one of sf s greatest meditations on extended human lifespan the limitations of human memory and the haunted confabulations that go with forgetting on the north pole of pluto there stands an enigma a huge circle of standing blocks of ice built on the pattern of earth s stonehenge but ten times the size standing alone at the edge of the solar system what is it who could have built it the secret lies in the chaotic decades of the martian revolution in the lost memories of those who have lived for centuries this new tor essentials edition of icehenge includes a new introduction by henry farrell co author of underground empire how america weaponized the world economy at the publisher s request this title is being sold without digital rights management software drm applied at the publisher s request this title is being sold without digital rights management software drm applied

kim stanley robinson is one of science fiction s greats fans of the mars books will delight in this novel new readers will be astonished by the depth breadth and power of robinson s invention sunday times polymathic visionary brilliance financial times winner of the 2013 nebula award for best novel the year is 2312 scientific advances have opened gateways to an extraordinary future earth is no longer our only home new habitats have been created throughout the solar system on moons planets and in between but in 2312 a sequence of events will force humanity to confront our past present and future the first event takes place on mercury in the city of terminator itself a miracle of engineering on an unprecedented scale for swan er hong it will change her life once a designer of worlds now swan will be led into a plot to destroy them 2312 is a bold vision of humanity s future and a compelling portrait of those individuals who will shape its events novels by kim stanley robinson icehenge the memory of whiteness a short sharp shock antarctica the years of rice and salt galileo s dream 2312 shaman aurora new york 2140 red moon

kim stanley robinson the new york times bestselling author of science fiction masterworks such as the mars trilogy and 2312 has on many occasions imagined our future now in shaman he brings our past to life as never before there is thorn a shaman himself he lives to pass down his wisdom and his stories to teach those who would follow in his footsteps there is heather the healer who in many ways holds the clan together there is elga an outsider and the bringer of change and then there is loon the next shaman who is determined to find his own path but in a world so treacherous that journey is never simple and where it may lead is never certain shaman is a powerful thrilling and heartbreaking story of one young man s journey into adulthood and an awe inspiring vision of how we lived thirty thousand years ago
