the aim of pattern theory is to create mathematical knowledge representations of complex systems analyse the mathematical properties of the resulting regular structures and to apply them to practically occurring patterns in nature and the man made world starting from an algebraic formulation of such representations they are studied in terms of their topological dynamical and probabilistic aspects patterns are expressed through their typical behaviour as well as through their variability around their typical form employing the representations regular structures algorithms are derived for the understanding recognition and restoration of observed patterns the algorithms are investigated through computer experiments

do you want to crochet a snowman how about elsa and anna s patterns too these are irresistibly popular aren t they even for the few who haven t seen the blockbuster it s a hit a great book on frozen crochet easy elsa anna olaf sven amigurumi hat or cape with step by step instructions and full color photos
