como ensinar e aprender história da arquitetura para responder essa inquietação de
maneira certa são revisitados oito importantes livros panorâmicos sobre a arquitetura
brasileira produzidos em diferentes momentos do século xx e início do xxi a
organizadora e sua equipe de pesquisa exploram a possibilidade de combinar a medição

quantitativa com interpretações de natureza mais subjetiva revelando paradoxos complexos não intuitivos e talvez inesperados dando forma a alguns dos vazios do cânon este livro apresenta um conjunto metodológico de ferramentas para a revisão crítica de ideias repetidas e axiomas convertidos em cânones possibilitando questionamentos e a abertura de novos caminhos as tabelas e gráficos produzidos no livro são livremente interpretados e contraponteados pela visão de dezoito autores e autoras que contribuíram para o livro desde jovens pesquisadores a renomados especialistas convidados as how to teach and learn architectural history to answer this question eight important panoramic books on brazilian architecture produced at different times in the twentieth century and early twenty first are revisited the organizer and her research team explored the possibility of combining quantitative measurement extracted from these books with interpretations of a more subjective nature revealing complex non intuitive and unexpected paradoxes shaping some of the canon s voids the book presents a methodological set of tools for the critical revision of repeated ideas and axioms converted into canons allowing for questioning and opening new paths the tables and graphs produced in the book are freely interpreted and counterpointed by the views of eighteen contributing authors ranging from young researchers to renowned guest experts marcio cotrim prof dr arquiteto fau ufba

versione in bianco e nero il volume che arriva oggi a questa edizione riveduta ed ampliata vuole ricordare alessandro anselmi come architetto e come uomo tramite le parole di prestigiosi colleghi amici e studiosi che con lui hanno lavorato e condiviso difficoltà e speranze nato in occasione della conferenza organizzata alla facoltà di architettura di roma in occasione del trigesimo della scomparsa di anselmi promossa da franco purini e dal coordinatore del dottorato di architettura teorie e progetto antonino saggio il libro fornisce un ricco ritratto della figura di anselmi che sonda non solo gli aspetti legati alla ricerca architettonica ma anche quelli del suo impegno come uomo politico e didatta in quattro blocchi tematici disegno ed enigmi vuoto visioni interruzioni dodici giovani dottorandi arricchiscono il volume con spunti di riflessioni che spostano l operatività del grande architetto al domani frammenti di futuro

in the realm of hard sciences time is seen as moving forward towards the future providing a framework for navigating the entropy and disorder of systems time is seen subjectively in the humanities as bergson describes it in terms of recursive cycles exposed via sentient experience from both angles humanity is inevitably susceptible to time either they die from entropic dispersion or depersonalizing repetition much like science myth reminds us that time ultimately devours life but it also points to a possible escape though cronus eats his offspring except for the youngest one zeus who is saved by a stratagem devised by his mother rhea that is replacing the baby with a stone the image of the father suppressing the next generation is then replaced by the myth of the

future emerging from the past when all children are regurgitated by means of another of zeus tricks thus the myth implies that intellect the trick and intellectual works the stones can transcend time if human beings cannot endure their extreme transience they can endure the lesser transience of their constructions in time born to last either physically or as collective memory the very essence of architecture engages in a titanic survival endeavour yet in an era anchored to the myths of perennial youth shall we also allow the right to be forgotten

this book gathers the proceedings of the 11th international conference of ar tec scientific society of architectural engineering colloqui at e which was held in palermo italy on june 12 15 2024 and brought together scholars in the fields of construction and conservation history building construction and performance building design and technologies digital transition and design of 4 0 buildings digital twins for the management of historical building heritage building human environment relationships and mitigation of vulnerabilities for the preservation of the built environment are also explored the contributions demonstrate that architectural engineering enables the construction of sustainable resilient adaptive and high performance buildings and as such is instrumental in fighting against climate change
