Managing Migration in Italy and the United States shows how the development of gatekeeping in the United States and Italy laid the groundwork for immigration restriction worldwide at the turn of the twentieth century. The volume brings together European and American scholars many for the first time effectively crossing national and disciplinary boundaries using archives on both sides of the Atlantic. The authors explore the rise of immigration restriction and the attendant growth of the bureaucracy to regulate migration through the lens of migration studies transnational history and diplomatic and international history. The essays contribute to recent scholarship on the global repercussions of immigration restriction and the complex web of interactions created by limits on mobility. Managing Migration brings to light Italy's important role in the establishment of international border controls promoted by the United States and expands the chronology of restriction from its origins to the present.

Partners in Gatekeeping illuminates a complex distinctly transnational story that recasts the development of U.S. immigration policies and institutions. Lauren Braun Strumfels challenges existing ideas about the origins of remote control by paying particular attention to two programs supported by the Italian government in the 1890s: a government outpost on Ellis Island called the Office of Labor Information and Protection for Italians and rural immigrant colonization in the American South, namely a plantation in Arkansas called Sunnyside. Through her examination of these distinct locations, Braun Strumfels argues that we must consider Italian migration as an essential piece in the history of how the United States became a gatekeeping nation. In particular, she details how an asymmetric partnership emerged between the United States and Italy to manage that migration. In so doing, Partners in Gatekeeping reveals that the last ten years of the nineteenth century were critical to the establishment of the modern gatekeeping system by showing the roles of Italian programs in this

migration system braun strumfels establishes antecedents for remote control beyond the well studied chinese and mexican cases
