neil campbell and jane reece s biology remains unsurpassed as the most successful majors biology textbook in the world this text has invited more than 4 million students into the study of this dynamic and essential discipline the authors have restructured each chapter around a conceptual framework of five or six big ideas an overview draws students in and sets the stage for the rest of the chapter each numbered concept head announces the beginning of a new concept and concept check questions at the end of each chapter encourage students to assess their mastery of a given concept new inquiry figures focus students on the experimental process and new research method figures illustrate important techniques in biology each chapter ends with a scientific inquiry question that asks students to apply scientific investigation skills to the content of the chapter

in god saw you dr carpenter takes the reader through a fascinating journey that focuses on the modern sciences of genetics and biochemistry uniting them with the mysteries of the kingdom of god over 1 400 footnotes are presented on the page referring to them so the reader has immediate access to the truths presented modern science and the holy scriptures conflict with each other on these pages the battle lines are reduced unapologetically from assumptions possibilities hypotheses and theories to raw truths many of which you might find to be inconvenient the author finds an amazing number of

scriptures that deal with genetics ranging from simple concepts such as seeds and conception to complex references to dna and the human genome the book's real pay dirt is when he reveals the beautiful spiritual truths that are metaphorically parallel to these physical sciences this is the true sense of the word apocalypse meaning an unveiling the entire bible is an apocalypse an unveiling of who god is his kingdom his expectations and all of history past present and future this book does just that lifting the veil off of familiar scriptures and revealing the rich and thrilling images previously hidden in the mysteries of god's word get ready to see into the mind of god as he planned and programmed your genome as king david said in psalm 139 your eyes saw my substance being yet unformed and in your book they all were written when as yet there were none of them how precious also are your thoughts to me o god how great is the sum of them yes god actually saw you and when you see that you will never be the same again
