since the battle of the little bighorn george armstrong custer has possessed one of the most unique places in american history although he was a capable cavalry officer who served

honorably during the civil war he remains one of the most instantly identifiable and famous military men in american history due to the fact he was killed during one of the country s most well known and ignominious defeats the battle of little bighorn at the same time this one relatively insignificant battle during america s indian wars has become one of the country s most mythologized events and continues to fascinate americans nearly 140 years later on the morning of june 25 custer s scouts discovered a native american village about 15 miles away in the valley of the little bighorn river choosing to disregard his superiors orders to wait for a concerted effort the grandstanding custer intended to deliver his own decisive victory by dividing his command into three units an extremely bold tactic when done in the face of a much larger force due to their belief in the inferiority of the plains indians and mindful of previous indian tactics that sought to avoid pitched battle custer and his men were most concerned with forcing the action and failed to understand the true nature of the situation they had entered the native american gathering centered around the famous sioux chief sitting bull numbered roughly 8 000 individuals and about 2 000 of them were warriors custer s forces amounted to a mere 31 officers 566 troopers and 50 scouts and civilians and they had been split into three columns in order to stop a possible retreat before the battle it is believed custer thought he was facing a group of about 800 which was sitting bull s strength in the weeks before the battle however the army s native american scouts and civilian scouts had not adequately informed the army of the reinforcements that arrived and at little bighorn custer s three pronged attack was completely overwhelmed how custer met his fate and whether there even was a last stand remain subjects of debate but what is known is that the battle of the little bighorn was one of the u s military s biggest debacles all told the 7th cavalry suffered over 50 casualties with over 250 men killed and over 50 wounded the dead included custer s brothers boston and thomas his brother in law james calhoun and his nephew henry reed custer and his men were buried where they fell a year later custer s remains or more accurately the remains found in the spot labeled with his name were relocated to west point for final interment

peter cornwell tells the story of the greatest air battle of the second world war when six nations were locked in combat over north western europe for a traumatic six weeks in 1940 he describes the day to day events as the battle unfolds and details the losses suffered by all six nations involved britain france holland belgium germany and rather belatedly italy as far as raf fighter squadrons in france were concerned it was an all hurricane show yet it was the blenheim and battle crews who suffered the brunt of the casualties every aircraft lost or damaged through enemy action while operating in france is listed together with the fate of the crews the raf lost

more than a thousand aircraft of all types over the western front during the six week battle the french air force 1 400 but luftwaffe losses were even higher at over 1 800 aircraft

harriet harvey wood s original and fascinating book shows that rather than bringing culture and enlightenment to england the normans aggressive and illegal invasion destroyed a long established and highly developed civilization which was far ahead of other european peoples in its political institutions art and literature it explores the background and lead up to the invasion and the motives of the leading players the state of warfare in england and normandy in 1066 and the battle itself by all the laws of probability king harold ought to have won the battle of hastings without difficulty and to have enjoyed a peaceful and enlightened reign that he did not was largely a matter of sheer bad luck the result could just as easily have gone the other way this gripping and highly readable book shows how he came to be defeated and what england lost as a result of his defeat and death

the battle of petersburg was the culmination of the virginia overland campaign which pitted the army of the potomac led by ulysses s grant and george gordon meade against robert e lee s army of northern virginia in spite of having outmaneuvered lee after three days of battle in which the confederates at petersburg were severely outnumbered union forces failed to take the city and their final futile attack on the fourth day only added to already staggering casualties by holding petersburg against great odds the confederacy arguably won its last great strategic victory of the civil war in the battle of petersburg june 15 18 1864 sean michael chick takes an in depth look at an important battle often overlooked by historians and offers a new perspective on why the army of the potomac s leadership from grant down to his corps commanders could not win a battle in which they held colossal advantages he also discusses the battle s wider context including politics memory and battlefield preservation highlights include the role played by african american soldiers on the first day and a detailed retelling of the famed attack of the first maine heavy artillery which lost more men than any other civil war regiment in a single battle in addition the book has a fresh and nuanced interpretation of the generalships of grant meade lee p g t beauregard and william farrar smith during this critical battle

it is estimated that around 50 000 brigade lads served in the first world war during which many honors and distinctions were awarded the brigade contributed two service battalions of the king s royal rifle corps whose members were comprised entirely of past and present members of the church lads brigade these were known as pals battalions the story of the battalion centers around the experiences of eight men who served and some who died in the battles of the

somme arras and the lys in the latter half of the nineteenth century influential christians were worried about the poor spiritual and physical development of young people it was at that time that brigade groups began to spring up all over the uk walter mallock gee who was secretary of the junior branch of the church of england temperance society and a volunteer army officer founded the church lads brigade in 1891 by 1908 the membership of the brigade stood at about 70 000 in 1 300 companies when the call to arms came from field marshal horatio herbert kitchener in 1914 thousands of britain s youth flocked to join the armed forces members of the church lads brigade joined up in their droves at recruiting stations all over great britain two battalions were formed entirely from serving and ex members of the church lad s brigade the 16th service battalion and later the 19th service battalion both sponsored by the church lads brigade became known as the churchmen s battalion in 1914 no one could have imagined the horrendous stories that would unfold from the bloody massacre at so many notorious battles across belgium and the fields of flanders ypres passchendale somme arras lys and the brutal decimation of the battalion during the hell of the fighting at high wood no one could have imagined the discomfort and disease brought on by living in a trench full of water for days on end or over the top through acres of knee high mud more than 24 of the church lads brigade were awarded a victoria cross for their bravery but by 1918 many of those gallant young lads would not return home this is their story the author and the publishers acknowledge that some material in this title has been taken from the website 1914 1918 net without permission or acknowledgement and are grateful to the copyright holder chris baker for granting this permission retrospectively
