in this immensely thought provoking book thulasidas explores our notions of space and time and shows how our sense of reality rests on uncertain supports space is unreal the same way sound and smell are unreal and time is no more real than mathematics in a space created by the brain out of the light falling on our retinas for the hubble telescope is it a surprise that nothing can travel faster than light generated by our sensory perception and fabricated by our cognitive process the space time continuum is the arena of physics looking at reality as a cognitive model of perception thulasidas sheds new light on spiritual philosophies both western and eastern exploring the overlaps among the sciences and philosophies with impressive surety and clarity the unreal universe looks set to revolutionize the way we think of reality and understand both modern physics and ancient spiritual writings back cover

it can be confidently ventured that the present work by john gibbs will be one of the most widely discussed contributions to moral psychology in quite some time the text is quite alive intellectually a real page turner for those who are animated by cutting edge debates in the moral domain this is a work of accomplished and assured scholarship it offers the best analysis of the contribution of kohlberg and hoffman to moral development theory currently available journal of moral education feb 13 2004 it can be confidently ventured that the present work by john gibbs will be one of the most widely discussed contributions to moral psychology in quite some time the text is quite alive intellectually a real page turner for those who are animated by cutting edge debates in the moral domain this is a work of accomplished and assured scholarship it offers the best analysis of the contribution of kohlberg and hoffman to moral development theory currently available from the foreword by daniel k lapsley chair educational psychology department ball state university there is no one with a better understanding of how to help young people behave in a moral manner than john gibbs his equip program discussed in this book is among the finest peer treatment programs available for antisocial youth this book offers a far reaching analysis of basic processes in moral development and it should be read by anyone who is interested in the theory and practice of promoting positive behavior in even the most troubled young william damon director stanford center on adolescence stanford university moral development and reality provides a most engaging journey through the terrain of moral and empathic development through the eyes of a seasoned guide gibbs s extension and integration of his previous work offers a remarkably fresh interesting and provocative study challenging traditional understandings of moral development journal of moral education moral development and reality beyond the theories of kohlberg and hoffman explores the nature of moral development social behavior and human interconnectedness by

comparing contrasting and going beyond the works of pre eminent theorists lawrence kohlberg and martin hoffman author john c gibbs addresses fundamental questions what is morality can we speak validly of moral development is the moral motivation of behavior primarily a matter of justice or of empathy does moral development including moments of moral inspiration reflect a deeper reality useful for promoting classroom debate and academic dialogue this innovative book examines fundamental themes of kohlberg s cognitive developmental approach the recent integration of hoffman s theory and research on empathy and moral development moral self relevance and other variables that account for prosocial behavior the understanding and treatment of antisocial behavior issues of moral motivation perception and reality moral development and reality elucidates the full range of moral development from superficial perception to a deeper understanding and feeling through social perspective taking providing case studies and chapter questions gibbs creates a unique framework for understanding kohlberg s and hoffman s influential contributions primarily intended for advanced undergraduate and graduate students in the social and behavioral sciences counseling and education moral development and reality will also appeal to scholars in these disciplines

in this sequel to for love of matter a contemporary panpsychism also published by suny press freya mathews argues that replacing the materialist premise of modern civilization with a panpsychist one transforms the entire fabric of culture in profound ways she claims that the environmental crisis is a symptom of deeper issues facing modern civilization arising from the loss of the very meaning of culture to come to grips with this crisis requires a change in the metaphysical premise of modernity deeper than any as yet envisaged even by the radical ecology movement this is a change with profound implications for the full range of existential questions and not merely for questions regarding our relationship with nature

perhaps sometimes you catch yourself wondering why you re stuck living in this ordinary world without magic wands superhero abilities or at worst some vampire friends perhaps you dream of amazing adventures beyond the ordinariness of your daily life if so then we have a lot in common at least until recently because you know one day my life began to change suddenly and without warning i went from being an ordinary school girl hanging out with my best friend thinking about boys and longing for my own iphone to a girl surrounded by awesome mysteries and very real dangers who could have predicted that the day i got involved in my best friend s romance would be the day i began to unravel the secrets

of the universe

this is an admirable book which can be recommended to students with confidence and is likely also to become an indispensable source of reference for those researching fact construction discourse society how is reality manufactured the idea of social construction has become a commonplace of much social research yet precisely what is constructed and how and even what constructionism means is often unclear or taken for granted in this major work jonathan potter offers a fascinating tour of the central themes raised by these questions representing reality overviews the different traditions in constructionist thought points are illustrated throughout with varied and engaging examples taken from newspaper stories relationship counselling sessions accounts of the paranormal social workers assessments of violent parents informal talk between programme makers political arguments and everyday conversations ranging across the social and human sciences this book provides a lucid introduction to several key strands of work that have overturned the way we think about facts and descriptions including the sociology of scientific knowledge conversation analysis and ethnomethodology and semiotics post structuralism and postmodernism

question reality is an arduous journey of re organization of the mind of an anorexic academic female in fight for her own physical and mental survival in the process she re invents the wheel of ecology and science in consideration of human interactions with the environment written in a synergistic humorous dialogue between two graduate students terra the biogeek and buz the geobum who venture on a fictional road trip up the california coastline part 2 of a two part edition
